Refill Policy

Prescription refill requests are best done via the telephone or the internet. Each prescription label lists our toll-free refill number, 1-877-211-1126. For the internet link, utilize the NHCNE web-site at http://www.med.navy.mil/sites/nhcne/NHCNE/index.htm. Please allow three (3) working days to process refills and five (5) days for non-formulary items.

Internet Address

For the internet link, utilize the NHCNE web-site at http://www.med.navy.mil/sites/nhcne/NHCNE/index.htm and click on the "Online Refills" button. See the "Preferred Medication List" button to view the formulary.

Over-the-Counter Program

The Pharmacy operates an over-the-counter (OTC) medication program to assist beneficiaries with common OTC medications to alleviate the need for clinic appointments for everyday minor illnesses. Please note that some OTC medications have age restrictions. Also, OTC medications are limited to **three** items per **family** per month. Please respect these limitations.

Prescription Service

Telephonic prescriptions are not allowed; however, electronic prescribing and facsimile transmission are now available to your civilian providers! You may either present a "hard copy", original, **signed** prescription OR coordinate with your provider to electronically prescribe. You (or your designee) must be **present** to activate ALL prescriptions for filling.

TRICARE Pharmacy Options

TRICARE provides a world-class, comprehensive pharmacy benefit. We strive to offer you a flexible, convenient and affordable pharmacy program that ensures you and your family top-of-the-line customer service and products. More information may be obtained at your local MTF or by visiting the TRICARE web-site at http://www.tricare.mil and follow the links about prescriptions.

TRICARE Retail Pharmacy (TRRx) Program

This program may be used to have your prescriptions filled at participating network retail pharmacies. There is a monetary co-payment depending on criteria such as generic availability and formulary status.
TRRx pharmacies fill a 30-day supply;
TRICARE-eligible beneficiaries may use a network of approximately 55,000 retail pharmacies throughout the United States and its territories.

TRICARE Home Delivery Program (formerly TRICARE Mail-Order Program TMOP)

Using this mail order pharmacy, you can receive up to a 90-day supply for most medications you take regularly (for instance, drugs for high blood pressure, asthma, or oral contraceptives). You can save over retail costs because your co-payments for a 90-day supply are the same or less than that for a 30-day supply at a retail pharmacy.
Prescriptions are mailed to a centralized processing facility and mailed back directly to you. Your prescriptions can be mailed to any U.S. postal address, including temporary addresses, APO and FPO. If you are assigned to an embassy and do not have an APO/FPO address, you must use the official Washington, D.C., address.
Prescription refills may be processed via regular mail, called directly in to the facility or processed on-line over the internet.
Your physician can even fax your prescriptions directly to the processing facility at 1-877-895-1900.
For more information, see your local MTF pharmacy for a flyer or contact Express-Scripts, Inc. at their toll free number (877-363-1303).
