

transforming health through IT™

Increased knowledge, professionalism and expertise.

Advance your career.

## Set yourself apart with HIMSS certification

Validate your knowledge and elevate yourself from the rest of the pack. Make your mark in health IT with CPHIMS or CAHIMS certification:

- *Separate yourself from your peers*
- *Stay in the forefront of health IT*
- *Increase your commitment to the health sector*
- *Enhance your credibility*
- *Open doors to new opportunities*

Demonstrate your expertise and meet the demands of a competitive job market with HIMSS certification. To learn more, visit [www.himss.org/health-it-certification](http://www.himss.org/health-it-certification) or contact Julianna Kazragys, Manager, Certification, at [certification@himss.org](mailto:certification@himss.org) or 312-915-9216.

### Which certification is right for you?

The **CPHIMS (Certified Professional in Healthcare Information and Management Systems)** is designed for professionals with at least five years of IT experience, with three of those in a healthcare setting, and a bachelor's degree; or three years of IT experience, with two of those in a healthcare setting, and a master's degree.

The **CAHIMS (Certified Associate in Healthcare Information and Management Systems)** is designed for emerging professionals with less than five years of health IT experience who want to establish themselves in the industry.
