

Induction Day

During this year's induction day (I-Day), 1,196 Midshipmen, members of the Class of 2019, were seen by our medical staff in preparation for their military service. The evolution is meticulously planned and brings all the incoming midshipmen through immunizations, blood-draw, medical records, and optometry—to name just a few stations. The months of hard work put into making I-Day a success paid off as the class of 2019 is on track to begin their naval careers.
