

## DENTAL SERVICES PROVIDED

The Brigade Dental department has the ability to provide a complete array of dental treatment procedures:

- Preventative Dentistry (dental cleanings, annual exams, radiographs, fluoride treatments)
- Operative Dentistry (fillings)
- Restorative Dentistry (cosmetic bonding)
- Prosthodontics (implants, crowns, bridges, veneers, removable prostheses)
- Endodontics (root canal therapy)
- Periodontics (gum surgery and maintenance)
- Orthodontics (braces)
- Oral Surgery (tooth extraction, implant placement)
- Temporal Mandibular Joint Dysfunction treatment
- Custom Athletic Mouthguard fabrication

If care cannot be provided at this treatment facility, the patient will be referred to Naval Postgraduate Dental School or National Naval Medical Center. If care cannot be provided at NPDS/NNMC due to time restraints or patients do not meet assignment criteria, the patient will be sent to a civilian provider through the Active Duty Dental Plan (ADDP) [www.addp-ucci.com](http://www.addp-ucci.com)
