

Due to recent deployments the Optometry Clinic at the Naval Health Clinic Annapolis (NHCA) will be temporarily closed until further notice. When care is not available at a Military Treatment Facility (MTF) or you need to be referred to a civilian provider, Health Net maintains a network of civilian providers who are available to supplement your optometry care. Your coverage and out-of-pocket costs are dependent upon your eligibility and your TRICARE status. Contact Health Net Federal Services @ 1-877-874-2273 or visit our TRICARE Service Center for further details.

ACTIVE DUTY MEMBERS: will seek optometry care through local MTFs such as Kimbrough, Bethesda, Walter Reed and Malcolm Grow Medical Center. If you cannot gain access to these facilities due to capability or accessibility, you will advise your Primary Care Manager (PCM) and a determination will be made regarding a referral to a civilian TRICARE Network Provider.

TRICARE PRIME ACTIVE DUTY FAMILY MEMBERS: have the option of obtaining optometry services through the local MTFs or seeking care through one of the local TRICARE Network Providers. As an Active Duty Family Member you are eligible for an annual eye examination, glasses and contacts are not a TRICARE covered benefit.

TRICARE PRIME RETIREES AND RETIREE FAMILY MEMBERS: have the option of obtaining optometry services through the local MTFs (some on a space available basis only) or seeking care through one of the local TRICARE Network Providers. In a RETIREE status, you can obtain an eye examination once every two years. Again, glasses and contacts are not a TRICARE covered benefit and you will have a \$12.00 dollar co-pay per visit.
