HIV test? Ask your doctor at your local [Navy Medical Treatment Facility](#) or visit a free [HIV Testing Site](#) in your area.

HIV hotlines in your state? [TheBody.com](#) has state-specific [Phone Numbers](#) you can call for help. The Body is an AIDS and HIV information resource whose mission is to use the Web to lower barriers between patients and clinicians, demystify HIV/AIDS and its treatment; improve patients' quality of life, and foster community through human connection.

Talking to your kids about sex? [SIECUS Publications](#) may help you communicate with your children about sexuality issues. SIECUS recognizes that parents need information on how to educate their children about sexuality and that they may need help and encouragement to fulfill this important role. SIECUS' publications for parents are designed to help parents communicate their values about sexuality to their children and provide accurate, honest, and developmentally appropriate sexuality information.

Talking to your partners about your HIV status. Here's some food for thought from "Women Alive" courtesy of [TheBody.com](#).

National Library of Medicine's on-line [Sexually Transmitted Disease](#) tutorial is a self-paced sound and slide program that covers STD symptoms and prevention.

[Advocates for Youth](#) is dedicated to creating programs and promoting policies which help young people make informed and responsible decisions about their sexual health. We provide information, training, and advocacy to youth-serving organizations, policy makers, and the media in the U.S. and internationally.

American Social Health Association (ASHA) is a not-for-profit group dedicated to stopping the spread of sexually transmitted diseases (STDs).

[DrKoop.com](#) is a company led by Dr. C. Everett Koop, former U.S. Surgeon General, and others who are dedicated to improving the quality of people's lives by empowering them to improve their health.

[Family Planning Council](#) believes that every individual must have access to health care information and services so they can make healthy decisions. Be smart about your health and your life. Arm yourself with good information about sexual and reproductive health, and visit a family planning center for medical services and counseling.

[Mayo Clinic Health Oasis](#) is an online information and communications service provided by Mayo Foundation for Medical Education and Research.
