

# Okinawa Overseas Screening

## Medical Conditions That May Result in Disapproval

These criteria can be grouped into four different categories:

1. Medical Adjuncts: Overseas clearance may be disapproved if a family member has/requires:
  - Braces/splints (difficulty in obtaining parts, supplies, and/or repair services)
  - Prosthetics for major limbs (difficulty in obtaining parts, supplies, and/or repair services)
2. Services: Overseas clearance may be disapproved if a family member requires care by the following sub-specialists more than once a year:
  - Cardiology, Endocrinology, Rheumatology, Bowel or Bladder rehabilitation services (routinely available only through Medevac)
  - Medications not available on island and without an easy substitute
  - Laboratory monitoring required in a timely fashion that is not available on island (i.e., drug levels)
  - Any specialty requiring Medevac more than once a year
3. Specific medical conditions:
  - USN dependants with EFMP category 3 assignment or equivalent conditions with other services
  - Bilateral deafness (non-hearing, requiring full time sign language translator)
  - Family members with chronic medical conditions that have required or have a high probability of requiring ICU facilities may be disapproved
  - Cancer patients that have required or have a high probability of requiring ongoing oncology services may be disapproved
  - Medical conditions which have a high probability of resulting in ICU admissions, e.g., insulin-dependent diabetes
  - Morbid Obesity (BMI >40 kg/m<sup>2</sup> or 35 kg/m<sup>2</sup> in the presence of comorbidities)
  - Chronic Pain syndromes requiring multidisciplinary pain therapy
  - Gastroenterology disorders such as Chron's disease, Ulcerative colitis, Liver cirrhosis
  - Urologic pain disorders
  - Pediatric disorders requiring subspecialist management
4. Psychiatric Conditions:
  - Major Depression
  - Anxiety Disorder
  - Personality Disorder
  - Adult ADHD
  - Substance Abuse/Dependence 10 years prior to arrival on island
  - Mental Health Conditions in which the family member or active duty member has not achieved a one year therapy free and medication free stable status
