

Salutations,

On behalf of the Coalition of Sailors Against Destructive Decisions (CSADD), I welcome you to Naval Hospital Rota, Spain. Also, I would like to petition your involvement in our new Navy-wide program: CSADD; it is one of the many exciting and fulfilling initiatives that take place in our Command as we achieve excellence in our mission of the Navy, patient care, and community service.

CSADD is a peer mentoring program that promotes better decision making on and off duty. A group of motivated junior Sailors manage the organization. Our mission is to provide our most junior Navy brothers and sisters with the best prevention and intervention tools possible when dealing with issues such as alcohol misuse, reckless driving, recreational safety hazards, stress management and other activities that can lead to destructive decision making.

As a dedicated member of CSADD, I know that our organization is exceptional because of the members who are involved. Twice a month we meet to share in lunch and laughter while brainstorming ideas of ways to properly and effectively relay our message to the Command. To be as successful as possible in our endeavors I understand the importance of diversity and that YOU would be an invaluable asset to OUR TEAM. I eagerly anticipate hearing your new enthusiasm, new ideas, and new voice.

If there is anything we can do to make your assignment to beautiful Rota, Spain simpler please do not hesitate to contact us.

I humbly await your response; enjoy your day.

Newsom WJ
