

# Pediatric Residency Training Program

**2014 - 2015**

*Caring for the Children of Heroes*  
**Naval Medical Center Portsmouth**

# General Information

## Residency:

- Founded in 1949 with 295 graduates as of July 2014.
- Integrated Navy-Air Force program since 2005.
- Fully accredited by the Pediatric Residency Review (RRC) Committee in October 2011 through October 2016.
- 79 of 83 (95%) board pass rate from 2003-2013. Scores well above national average.
- RRC-Approved for 12 residents per year. Resident complement for 2014 was 14/10/9.
- Currently training 19 AF / 14 Navy Pediatric Residents.
- Authorized training spots for AY 15/16: Six (Navy), Five (Air Force).

## Demographics:

- **Largest eligible** Department of Defense (DoD) dependent **population** in the world - 77,000 in the market service area
- Approximately 70% Navy, 20% Air Force, and 10% Army
- Largest enrolled pediatric population in DoD - 36,000

## Clinical Services:

- **Busiest pediatric clinical services** in DoD - 259,000 total encounters in FY 2010.
  - 300-350 newborns delivered per month
  - 67,000 emergency department visits per year
  - Robust pediatric subspecialty service - 19,000 visits per year.
  - Average daily NICU census of 17. Highest number of < 1500 gram premies per year
  - Average ward daily census of 10
  - Highest volume PICU - 200 inpatient/400 procedure admissions/year. - Average PICU census of 3
- Busiest pediatric oncology practice in DoD with 54 children's oncology group protocols approved by the IRB.
- Comprehensive neurodevelopmental disabilities program with an Autism Diagnostic Center
- Cystic Fibrosis Center
- All required rotations available at Naval Medical Center Portsmouth (NMCP) except pediatric emergency medicine, one intern ward, one PICU month provided at Children's Hospital of the King's Daughters (CHKD), and general pediatric rotations at Langley AFB.

# Facility

## Most historic major medical center in the DoD

- Original building constructed in 1830 was renovated (2004) and serves as a national historic landmark (Building One).
- One million square-foot state-of-the-art clinical center opened in 1999 (Building Two).
- Renovated (2005) previous clinical center (Building Three) now home to
  - Clinical and administrative spaces
  - State-of-the-art educational classrooms and computer learning centers
  - State-of-the-art gym
  - Navy Exchange, barber and food court
- **Dedicated resident workspaces**, locker rooms, computers and Graduate Medical Education Center in Building Three
- **Simulation center** (2005)
- **Federal Small Library of the Year** (2003)

# Pediatrics & Humanitarian Missions

The Indonesian Tsunami of 2005 as well as Hurricane Katrina brought home to the military the utility of participating in Humanitarian Assistance and Disaster Relief (HADR) missions. The hospital ship USNS Mercy was dispatched to Indonesia while the Marine amphibious ship USS Bataan supported relief efforts at home after Katrina. In 2005 the Department of Defense issued a policy statement that HADR missions were a "core US military mission" that "shall be given priority comparable to combat operations." Who better to do humanitarian work than pediatricians? With the advent of this policy the NMCP Pediatric residency sought to develop robust training opportunities for our residents to prepare them for these future missions. In the 2006-2007 academic year we began sending third year residents on joint missions to Honduras with the military pediatric residency in San Antonio. These ten day missions offered residents the ability to participate in a nutritional research study with the Honduran Ministry of Health. Political events within Honduras unfortunately led to the end of these trips. In light of this NMCP Pediatrics changed course to embrace participation in operations based aboard Navy ships. These missions travel to areas of the

developing world where they see patients who often haven't seen physicians in years. Participants on these evolutions are not only Navy assets- members of all branches of the military are often on board as well as civilian organizations such as Operation Smile and foreign military medical personnel. Beginning in 2008 we have placed senior residents aboard these annual

missions for 2-4 week experiences. Residents fly to a country to meet the ship, sleep aboard ship and travel to shore daily to see patients, seeing a wide variety of ailments only read about in the US. These missions also allow residents to learn a little about what it takes to prepare for an overseas deployment. When a real world disaster like the Haiti earthquake occurs, staff pediatricians may be given as little as 48 hours notice that they will be leaving for an unknown length of time to assist. Your time on an international trip as a resident will be invaluable in preparing for this short fuse tasking.

# Academics

Residents at NMCP are fortunate to be exposed to such a large and diverse patient population. Our residents are extremely well-prepared for their challenging future assignments because they have “seen it, done it, and taught it” many times during their residency. However, we also recognize the need for dedicated time to cover the pediatric subject matter in a systematic fashion. These learning experiences are described below:

- Morning report from 0730-0800 all weekdays except Thursday. Interactive case-based discussions about recent admissions. Mandatory attendance.
- Academic Morning every Thursday from 0800-1200. The pediatric core curriculum is presented in a variety of formats (lecture, case discussions, jeopardy, sample board questions, experiential learning, small group discussions). Curriculum derived from Pediatric Review and Education Program (PREP) on an 18-month rotating schedule. Pre-reading of review articles provided for each module. Faculty cover the clinical services. Mandatory attendance.
- Continuity Clinic Curriculum once weekly 30 minutes prior to continuity clinic session for interns. 50 sessions over the year covering the body of general pediatrics. Pre-reading of review articles provided.

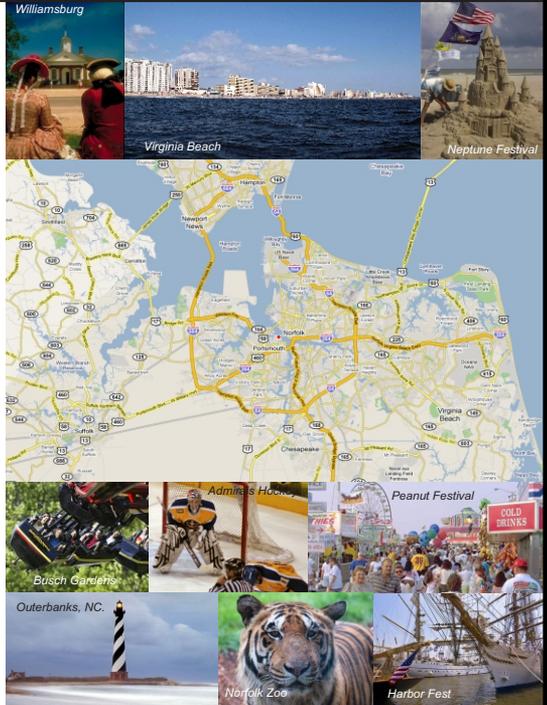

- Research is available, but not required, for interested residents. Several faculty members have formal research training (MPH). See list (pages 10+) for projects and recent publications. A process improvement project is required.

# Quality of Life

Naval Medical Center Portsmouth is located on the banks of the Elizabeth River in the historic and diverse community of Hampton Roads. Portsmouth is centrally located between the resort city of Virginia Beach, the vibrant downtown of Norfolk, suburban life in Chesapeake, the more rural Suffolk, and the peninsula communities of Hampton and Newport News. All are located no more than 20-30 minutes from Portsmouth!

This region is one of the most popular vacation sites on the East Coast. Miles of beautiful beaches are minutes away in Virginia Beach. Outdoor and environmental enthusiasts will love the ecologically diverse Chesapeake Bay and its inland waterways that transect the entire region. The historic triangle of Williamsburg, Jamestown, and Yorktown boast some of the most significant historical attractions in the country. Busch Gardens Europe and Water Country USA are only 45 minutes away. The watersport paradise of North Carolina's Outer Banks is just an hour away. The eastern shore and its famous islands of Chincoteague and Assateague are only 90 minutes north. Skiing and mountain activities are only 3 hours away, as is Washington D.C and all it has to offer.

The Hampton Roads area boasts world-class theater, opera, Broadway shows, and a symphony. Museum enthusiasts will love Nauticus in downtown Norfolk with the Battleship Wisconsin alongside, the Virginia Air and Space museum (adjacent to the Langley NASA research center), the Chrysler Museum of Art, the Norfolk Botanical Gardens, the Norfolk Zoo, as well as the Virginia Aquarium, one of the largest and top-rated Aquariums on the east coast. Sports are well represented by Triple-A baseball's Norfolk Tides (who play in Harbor Park, voted the best minor league baseball stadium in the country) and AHL Hockey's Norfolk Admirals. Runners and triathletes will enjoy the multitude of world class races in the area, including the Rock 'n Roll Half Marathon (held at the Oceanfront during the American Music Festival, which is the largest outdoor music festival on the east coast), as well as the St. Patrick's Day Shamrock Sportsfest. These events, along with multiple Division-I university athletic programs, give sports enthusiasts plenty to do.

# Cost of Living

While Hampton Roads has an amazing array of things to do, the cost of living remains near the national average, and far below that of the other Naval Medical Centers. See the chart below for cost of living comparisons, and you will see that there is no other Naval Medical Center in the country where you can get so much for so little!

Index	National Average	Hampton Roads, SE Virginia, VA	San Diego, CA	Bethesda, Gaithersburg, Frederick, MD
Composite (100%)	100	101.1	131.9	127.3
Grocery (13.56%)	100	96.7	106.7	109.5
Housing (27.02%)	100	94.1	201.9	199.9
Utilities (10.30%)	100	107.9	102.8	114.9
Transportation (12.35%)	100	97.9	114.8	103.9
Health (4.60%)	100	106.2	111.4	94.2
Miscellaneous (32.17%)	100	106.7	105.2	94.7
Expected Spending Comparison By Household Types				
Owning vs Renting	National Average	Hampton Roads, SE Virginia, VA	San Diego, CA	Bethesda, Gaithersburg, Frederick, MD
Average Home Prices	\$289,430	\$277,062	\$574,218	\$575,584
Average Rent, 2bdr, SFH	\$881	\$1,030	\$1,795	\$1,632

Source: ACCRA Cost of Living Index Second Quarter 2014  
Date 3 NOV 2014

**Bottom Line:** World class activities, short commutes, and a low cost of living make the NMC Portsmouth Pediatric Residency the easy choice!

# Affiliations

## Children's Hospital of the King's Daughters (CHKD)

- Sponsored by Eastern Virginia Medical School
- Resident electives in all pediatric subspecialties. Most NMCP pediatric residents do 3-4 electives at CHKD during their residency
- Required pediatric emergency department rotation for PL1 and PL2 years for NMCP pediatric residents
- Required PICU rotation PL3 year
- Required ward rotation PL1 year

## 633rd Medical Group, Joint Base Langley-Eustis (30 minutes north of NMCP)

- PL2 and PL3 outpatient rotation for residents in place
- Very strong collaboration between the two medical facilities

# Affiliations

## Uniformed University of the Health Sciences, AFHSP Medical Students

- NMCP Pediatrics provides pediatric clerkships to 3<sup>rd</sup> and 4<sup>th</sup> year medical students from USUHS, and the AFHSP program.
- Many faculty members have teaching faculty appointments at USUHS.

## Within Naval Medical Center Portsmouth

- Residents in our institutional obstetrics and gynecology program perform clinical rotations in our NICU.
- Non-pediatric interns in other specialties do clinical rotations in the General Pediatric Clinic.

## Naval Medical Center Portsmouth Research Competition:

- **Bonta M**, **Carr M**. Congenital absence of ductus venosus with suspected skeletal dysplasia: a rare association not previously reported. 2010.
- Fitzpatrick J, **Speakman J**, Kapfer S, **Holston A**. In Utero Exposure to Maternal Intravenous Contrast in Premature Twins Resulting in Abdominal Radiopaque Densities. 2010.
- **Buryk M**, **Miller J**. An unusual presentation of cat scratch disease. 2010.
- **Rosen L**, **Dukes S**. An usual presentation of hydrometrocolpos. 2011.
- **Smiley MR**, **Sherman EM**. Detection of Surreptitious Administration of Insulin to a 2-Week-Old Infant. 2011.
- **Speakman J**, **Buryk M**, Goretzke S. Lesions of the Corpus Callosum in Viral Encephalitis. 2011.
- **Wolf ME**. Federal Medical Assets and Their Utilization -- A Review of Title 10, Title 32, The Posse Comitatus Act, and Civil Code. 2011.

# Publications and Research

- **Dukes S.** A novel presentation of TK polyagglutination. 2011.
- **Feldman B, Rogers C, Strait M.** Familial Hemophagocytic Lymphohistiocytosis in a Two Month Old Male: A Rare Diagnosis in the Case of a Patient with Fever of Unknown Origin. 2011.
- **Krispinsky L, Donnelly S, Wessler J.** Development of Methemoglobinemia and hemolytic anemia associated with rasburicase administration in a patient with unknown G6PD deficiency. 2012.
- **Griswold A, Carr M.** Successful use of milrinone in a premature infant with pulmonary hypertension. 2012.
- **Darrow C, Devito J.** E. coli Bacteremia in the setting of Inpatient Fecal Disimpaction. 2012. **SECOND PLACE WINNER.**
- **Saland S, Delacruz A, DeVito J.** Unique presentation of Crohn's Disease in a Pediatric Patient with Familial Adenomatous Polyposis. 2012.
- **Brady A, McLean M, Maldarelli-Drey J.** Impact of skin-to-skin newborn transition on maternal intent to breastfeed, maternal infant bonding, and maternal post-delivery experience: An Observational Study. 2013.
- **Schulz E, McLean M, Kapfer S.** Partial deletion and duplication of the long arm of chromosome 4: A previously described genotype with new phenotypic qualities. 2013. **FIRST PLACE WINNER.**
- **Fitch J, Wessler J, Kapfer S.** Malignant or not malignant? The case of unclassified testicular sex cord stromal tumors. 2013.
- **Papacostas M, McLean M.** Use of red cell exchange in the treatment of exercise induced rhabdomyolysis in a patient with sickle cell trait. 2013.
- **Zanetti R, Feldman B.** Index of suspicion: Hepatitis induced aplastic anemia; A unique presentation of a rare condition. 2013.
- **Rogers S, Feldman B.** Diagnostic dilemma: Gastrointestinal stromal tumor in a 17 year-old female with recurrent severe iron deficiency anemia. 2013.
- **Rogers S, Potter L.** Diagnostic dilemma: Primary immunodeficiency in a 3 year-old patient with Guillain-Barre Syndrome. 2013.
- **Ballantyne A, Lewis D.** Glucose transporter Type 1 deficiency syndrome: Difficult to recognize but easy to treat. 2014.
- **Van Den Boom A, Lewis D, Olson S, Gauerke, S.** Rapid neurological decline in an immunocompromised pediatric patient: A fatal infection by a common pathogen. 2014.
- **Van Den Boom A, Fox J.** Right adrenal ganglioneuroma in a 7 year old female: A novel cause of hypertension in a pediatric patient. 2014.
- **Delle Donne A, Walker A, Douglas E, Spicer K, Plum, T.** Novel Use of Dexmedetomidine for the Treatment of Anti-Cholinergic Toxicity. 2014.
- **Mikles B.** Osteopetrosis: The deadly imitator. 2014.
- **Drumm C, Lewis D.** Congenital porencephaly and diffuse cerebral atrophy following episode of maternal diabetic ketoacidosis. 2014.
- **Lewis D, Adam O, Sag L.** Use of a novel neuroimaging technique in the diagnosis of a rare pediatric disorder. 2014.
- **Nadolsky J, Akins RS.** Can recommended genetic testing adversely impact care and family function in children with developmental delay? 2014.
- **Martini J, Lewis D, Rivet D.** More than just a headache: An uncommon cause for a common complaint. 2014.
- **Migliori J, Biswas A.** A case study on malarial sepsis in a 6 year-old. 2014.
- **Martin K, Biswas A, Hollon J, Kapfer S, Devito J.** Caustic burns of the rectum and colon from bleach instillation. 2014.
- **Zanetti R, Biswas A.** Hemolytic anemia as a result of piperacillin/tazobactam administration: A case report and discussion of pathophysiology. 2014.
- **Aukstulis K, Mattingly M.** Acute pericarditis after use of a synephrine containing dietary supplement. 2014.

## Uniformed Services Pediatric Seminar Research Competition:

- **Buryk, M.** An unusual presentation of Cat scratch disease. 2010. Finalist.
- **Speakman, J.** Reversible Splenic and Genu Lesions of the Corpus Callosum in Viral Encephalitis. 2010.
- **Short, P.** Tumor Necrosis Factor Receptor Associated Periodic Syndrome as a cause of chronic abdominal pain. 2011. Second place winner.

# Publications and Research

- **Buryk, M.** Subanesthetic ketamine infusion for reduction of opiate tolerance in adolescent with chronic pain syndrome. 2011. Finalist.
- **Dukes, S.** Hemolytic disease of the newborn secondary to anti-c and anti-E Rh antibodies: a comparison of outcomes after treatment with IVIG. 2011.
- **Van Den Boom, A.** Implementation of a bronchiolitis treatment pathway at a military treatment facility significantly reduces the use of ineffective therapies in the inpatient setting. 2014.
- **Drumm, C.** What's in a PHACE: A unique cardiac anomaly in the context of PHACE syndrome in a neonate. 2014.

## **Books and Chapters:**

- **J.R. Hollon, A. Fasano.** 2013. Celiac disease. In: Pediatric Gastroenterology - A Color Handbook. J. F. Pohl, C. Jolley, D. Gelfond (eds). Manson Publishing Limited

# Recent Activities and Accolades

**100% first time graduate board pass rates- 2008, 2009, 2010, 2012**

**Winner of the Williamsburg Knowledge Competition** (where all Pediatric Residencies in Virginia compete) - **2007, 2010, 2013**

**2013-** Third year resident is NMCP Resident of the Quarter for 2nd Quarter

**2012-** Staff member selected as Outstanding Junior Physician of the Year for NMCP

**2012-** Third year resident is NMCP Resident of the Quarter for 3rd Quarter

**2012-** Third year resident is NMCP Resident of the Quarter for 1st Quarter

**2011-** Staff member selected as Outstanding Junior Physician of the Year for NMCP

**2011- PROGRAM RECEIVES MAXIMUM FIVE YEAR ACCREDITATION BY THE RESIDENCY REVIEW COMMITTEE (RRC)**

**2011-** NMCP faculty member wins the Dave Berry Award again

**2010-** Staff member selected as Outstanding Senior Physician of the Year for NMCP

**2010-** NMCP faculty member wins the American Academy of Pediatrics Dave Berry Award for the outstanding junior staff Pediatrician among all three services

**Class of 2010** average American Board of Pediatrics exam score was **one of only three** in the US (206 total programs) over 600

**2009-** NMCP faculty member named the outstanding Pediatric educator among all teaching sites of the Uniformed Services University

**Navy Interns going on to Operational Medicine Tours- some interns choose this option**

2009	None
2010	None
2011	4 Flight surgery, Hawaii (Marines)
2012	Flight surgery, Undersea Medicine, Japan-based ship
2013	Flight surgery (2), Norfolk Clinic
2014	Flight surgery (2), Norfolk-based ship, Great Lakes-based Clinic

# Recent Activities and Accolades

## Residents on Humanitarian Ship Missions

2009	USNS Comfort- 4
2010	USS Iwo Jima- 5
2011	USNS Comfort- 4
2012	No mission
2013	No mission
2014	No mission

## Residents going straight into fellowship

2009	Heme-Onc (Air Force), Neonatology (Navy)
2010	Cardiology (two Navy), Neonatology (Navy)
2011	Adolescent Medicine (Navy), Neonatology (Navy)
2012	Neonatology (Air Force)
2013	Neonatology (Air Force)
2014	Pediatric Intensive Care (Air Force), Neonatology (Air Force)

## First general pediatric duty stations

2009	Navy: Okinawa, Yokosuka, Pensacola (2) Air Force: Scott AFB, Elmendorf AFB, NMCP (Chief)
2010	Navy: Sigonella, Guam, NMCP (Chief) Air Force: Dover AFB
2011	Navy: Rota, 29 Palms, Pensacola, Jacksonville, Camp Pendleton, NMCP (Chief) Air Force: Yokota AFB, Eielson AFB, NMCP (Chief)
2012	Navy: Naples, Guam, NMCP, NMCP (Chief) Air Force: McGuire AFB, NMCP (Chief)
2013	Navy: Camp Lejeune, Ft. Belvoir, Jacksonville, NMCP (Chief) Air Force: Hickam AFB, NMCP (Chief)
2014	Navy: Camp Lejeune, Cuba, Camp Pendleton, NMCP, NMCP (Chief) Air Force: Dover AFB, Davis-Monthan AFB, NMCP (Chief)

## Resident Research Activities 2009-2013

NMCP research competition

2009	One submission, one 1st place winner
2010	Three submissions
2011	Six submissions
2012	Four submissions, one 2nd place winner
2013	Six submissions, one 1st place winner
2014	Ten Submissions

# Recent Activities and Accolades

## American Academy of Pediatrics / Uniformed Services Pediatric Seminar (USPS)

- 2009 Two submissions, one winner of the Howard Johnson Award for best research paper by a resident
- 2010 Two submissions, one finalist
- 2011 Three submissions, one 2nd place winner, one finalist
- 2012 Four submissions
- 2013 Conference cancelled
- 2014 Two Submissions, one 3rd place winner, one finalist

## Other

- 2010 Resident platform presentation at Pediatric Academic Societies meeting
- 2011 Resident paper accepted in the AAP's journal Pediatrics
- 2011 Resident paper accepted in Pediatric Radiology
- 2012 Resident paper accepted in Journal of Pediatric Gastroenterology and Nutrition
- 2013 Resident paper accepted in Military Medicine
- 2014 Resident paper accepted in Journal of Toxicology

## **Alumni honors:**

- 2009 Winner of the Leo Geppert Award at USPS for outstanding research in primary care
- 2010 Outstanding Young Pediatrician for the Navy (AAP Uniformed Services Chapter East)
- 2011 Outstanding Young Pediatrician for the Navy (Chapter East) and Air Force (Chapter West)
- 2012 Outstanding Young Pediatrician for the Navy (Chapter East)
- 2013 Outstanding Young Pediatrician for the Navy and Air Force (Chapter West)
