

# Phase 1: Injury Prevention Current Practices and Initiatives

10 August 2010

Development Team:

**Navy & Marine Corps Public Health Center**  
Public Health Directorate

•  
**Old Dominion University**  
MPH / Health Promotion & Education Program

•  
**Center for Personal & Professional Development**  
Human Performance & Public Health Program

Presented to:

Musculoskeletal Continuum of Care Advisory Board

*The purpose of the MCCAB is to focus on the prevention and care of Musculoskeletal injuries among our Sailors, Marines, and their families. Given the complex global environment in which our military members serve, the MCCAB examines the unique challenges in treating combat-related injuries from prevention of injury, and from point of injury to complete outcome.*

## Table of Contents
