

Navy and Marine Corps Specimen Submissions for Steroid Testing:

All Navy and Marine Corps units will forward specimens for steroid testing to Navy Drug Screening Laboratory, Great Lakes (NDSL GL).

Navy Drug Screening Laboratory
2500 Rodgers Street, Building 5501
Great Lakes, IL 60088-2952

Navy commands must request authorization for steroid testing from the NADAP at BUPERS.
(See POC information below.)

Requests must be on command letterhead and should be included with the submitted specimen(s).

Specimens submitted for steroid analysis will not be tested for the standard DoD drug test panel unless specifically requested by the submitting unit.

A minimum of 60mL must be submitted for steroid testing. A minimum of 75 mL must be submitted if the command also requests the standard DoD test panel.

NDSL GL will forward specimens to the Sports Medicine Research Testing Laboratory (SMRTL) for steroid testing.

Upon completion of testing, SMRTL will send the steroid drug test results to NDSL GL. NDSL GL will transmit steroid drug test results, via encrypted email (PKI), to the service POC below. The service POC will transmit the steroid test result to the submitting unit.
