- Now you can easily see all of your facility's submissions that have no **NAMI Status** yet (blank), a DI (Disqualified Incomplete = additional information requested) status, a DQ (Disqualified) status, a QU (Qualified) status, or a WR (Waiver Recommended) status. They will be grouped together by their status. You may need to scroll down to see the category that you are interested in.
- The **Waiver Status** column shows whether the Waiver Authority (BUPERS or CMC) has acted on NAMI's recommendation. Possible values are (blank) - has not acted, WG - has granted a waiver, or WD - has denied waiver.
- Click on any name to go directly to that **Encounter Home**.

The **My Submission Stats** tool (for flight surgeons, from the **AERO Home** screen) works similarly, except that you don't have to specify a facility, and it will show status of all submissions that you personally have submitted during the specified time period.
