

WELCOME ABOARD!

Congratulations on your receipt of orders to Navy Medicine Operational Training Center (NMOTC) Detachment Naval Expeditionary Medical Training Institute (NEMTI), onboard Marine Corps Base Camp Pendleton, California. Our mission is to provide expeditionary medical training in an operational environment to Active and Reserve navy members to include medical, SEABEES and other support personnel.

We have among the finest training facilities in the Navy and pride ourselves on having the most professional staff with which to accomplish our mission. Our curriculum includes CENTCOM required training to the deploying units. We teach such classes as patient handling and transport, land navigation, personnel recovery, and convoy operations. We also are the center of excellence for the Tactical Combat Casualty Care provider and instructor courses.

As you can see, we cover a wide variety of programs which affect virtually all Navy Medicine Sailors at sometime during their career. Since serving your duty at NEMTI offers many of its own unique challenges, you will have the opportunity to interact on a daily basis with sailors from all designations, thus enhancing your leadership skills through an ever changing variety of personnel. We also have a Master Training Specialist (MTS) program at the command to add to your qualifications.

The uniform of the day at NEMTI is the Navy Working Uniform (NWU). Your assigned sponsor will be sending you a letter under separate cover addressing more specific local issues relating to housing, transportation, and school information. Should you need to contact the command before you receive your sponsor's letter please contact our quarterdeck at (866) 873-1841.

We look forward to your arrival and to welcoming you personally to the Expeditionary Medicine training team. You will find your tour here to be informative and rewarding and I am confident that you will do a superb job in your support of the command and in achieving our mission. Again, welcome aboard!

Sincerely,

T. J. Sawyer  
CAPT, MSC USN  
Officer in Charge  
Naval Expeditionary Medical Training Institute
