(c) BUMEDNOTE 1500 27 Aug 2014

1. Since issuance of references (a) and (b), numerous changes have occurred to both the fiscal and training environments. Training requirements outlined in reference (c) provide a broader student requirement base which require amendment of the guidelines in references (a) and (b). Those who have orders to deploy to conflict and combat areas have first selection for a seat. Continue to maintain a tracking process of attendees and their corps, rank, and date of graduation.

2. My point of contact is CDR Mark Lang, Director of Training, (850) 452-8436, mark.lang@med.navy.mil
