

GETTING DENTAL CARE WHEN YOU TRAVEL

The TRICARE Dental Program (TDP) is divided into two geographical service areas: CONUS (the 50 United States, the District of Columbia, Puerto Rico, Guam and the U.S. Virgin Islands) and OCONUS (outside the Continental U.S.)

When you travel, TDP coverage goes with you. When traveling anywhere in the CONUS service area you may visit any licensed and authorized dentist. However, visiting a MetLife network provider may save you time and money.

Visit www.metlife.com/tricare to find a network provider.

Traveling Overseas: CONUS to OCONUS

In OCONUS (service areas not in CONUS and covered services provided aboard a ship or vessel outside territorial waters of the CONUS), enrollees will generally pay CONUS cost-shares and will have claims paid as if visiting a non-network provider.

OCONUS to CONUS

Enrolled members residing in the OCONUS service area who receive dental care in a CONUS location are subject to CONUS cost-shares and payment rules, regardless of command-sponsorship status.

OCONUS to OCONUS

Enrollees who reside in the OCONUS service area are covered while traveling in other overseas areas. Enrollees who seek care in the OCONUS service area and are command-sponsored will have reduced cost-shares.
