

For 29 April-5 May 2016

## **VISIT A TRICARE-AUTHORIZED FACILITY FOR EMERGENCY CARE**

In an emergency determining where you go or worrying about how much it costs should be far from your mind. It is important to identify a TRICARE-authorized care facility close to you before an emergency occurs. To learn more about emergency care:

[www.tricare.mil/emergency](http://www.tricare.mil/emergency)

For a full list of facilities, visit:

[www.tricare.mil/findaprovider](http://www.tricare.mil/findaprovider)

When you seek care outside of a military treatment facility, you should familiarize yourself with TRICARE-authorized freestanding emergency rooms. These are separate structures from hospitals and provide walk-in emergency care to the public.

Check to make sure you receive care at a TRICARE-authorized emergency facility. If the facility is a non-network, non-participating provider, you may be charged up to 15 percent above the TRICARE-allowable charge for services. You may be responsible for paying this amount in addition to any applicable cost-shares.
