

HPSP students interested in Research.

Thanks for reaching out, glad you are interested in Navy research opportunities! We do not directly coordinate research from our office and there is no central contact for Navy Research, so you will have to reach out and make contact depending on what you are interested in.

You can start by looking at the opportunities are at our military medical school as they may work with research at different commands. See if any of USU info interests you:

<https://www.usuhs.edu/overview>. Also, look into individual departments from main link (listed in alphabetical order), and each department will have links to their research.

<https://medschool.usuhs.edu/>. Going through the specific department may reveal if there are any additional research opportunities. Once you start making contacts they may be able to refer you to different sites as well.

You can also explore each command site to see if there are any research opportunities:

1. Walter Reed National Military Medical Center:
<https://walterreed.tricare.mil/About-Us/Graduate-Medical-Education/Clerkships>
2. Naval Medical Center Portsmouth:
<https://portsmouth.tricare.mil/Research-Education/Graduate-Medical-Education-Dental-Programs>
3. Naval Medical Center San Diego:
<https://sandiego.tricare.mil/Academics/GME-Programs/Medical-Dental-Clerkship-Program>
4. Naval Medical Center Camp Lejeune:
[Naval Medical Center Camp Lejeune > About Us > Residency Program \(tricare.mil\)](#)
5. Naval Hospital Camp Pendleton:
[Residency Program \(tricare.mil\)](#)
6. Naval Hospital Jacksonville:
[Naval Hospital Jacksonville > About Us > Family Medicine Residency \(tricare.mil\)](#)

If you do set up a research opportunity, we can see if we can fund it! You would just need confirmation letter from the research and dates, then you would set up as a "clerkship" for one of your "Active Duty for Training" (ADT) times.

HPSP students interested in Operational Experience.

Thanks for reaching out, glad you are interested in Navy operational medicine opportunities! There is no central contact for all operational medicine, so you will have to reach out and make contact depending on what you are interested in.

For experience with SEAL teams or Undersea/Dive Medicine, there is no specific course, but you can reach out to the contacts at the different sites to inquire about opportunities/set up time with them.

Naval Special Warfare Group ONE

Currently not accepting rotating Medical Students

Naval Special Warfare Group TWO

Please Contact your Program Manager for Contact Information

EODGRU1

Please Contact your Program Manager for Contact Information

EODGRU2

Please Contact your Program Manager for Contact Information

Established courses include the following:

Cold Weather Medicine Courses

<https://www.med.navy.mil/Navy-Medicine-Operational-Training-Command/Cold-Weather-Medicine/>

Email: usn.pensacola.navmedoptrctrpns.list.nmotc-orcoord@health.mil

Tropical Medicine Course

[Military Tropical Medicine \(navy.mil\)](#)

Mountain and Dive Medicine Courses

<https://www.usuhs.edu/military-readiness/military-specific-curriculum/operational-courses>

Finally, if you come across a command that is not listed and are interested, please don't to hesitate to reach out to them and ask! If you find a sponsor, then we can explore options to fund your time with them. We would just need confirmation letter from the research and or operational command sponsor and dates, then you would set up as a "clerkship" for one of your "Active Duty for Training" (ADT) times.
