BUMED INSTRUCTION 6320.104 CHANGE TRANSMITTAL 1

From: Chief, Bureau of Medicine and Surgery

Subj: MEDICAL COGNIZANCE OF NAVY AND MARINE CORPS SERVICE MEMBERS
IN SUPPORT OF MEDICAL READINESS

Encl: (1) Revised page 5 of enclosure (2)
(2) Revised page 6 of enclosure (2)
(3) Revised page 7 of enclosure (2)

1. Purpose. To transmit new page 5, 6, and 7 of enclosure (2), to align BUMED guidance with the current support to Australian, United Kingdom, and United States (AUKUS) Submarine Rotational Force – West (SRF-W).

2. Action. Remove pages 5, 6, and 7 of enclosure (2) and insert enclosures (1), (2), and (3), respectively.

3. Records Management

a. Records created as a result of this change transmittal, regardless of format or media, must be maintained and dispositioned per the records disposition schedules found on Directives and Records Management Division portal page at <https://portal.secnav.navy.mil/orgs/DUSNM/DONAA/DRM/Records-and-Information-Management/Approved%20Record%20Schedules/Forms/AllItems.aspx>.

b. For questions concerning the management of records related to this change transmittal or the records disposition schedules, please contact the local records manager or the Office of the Chief of Naval Operations (OPNAV) Records Management Program (DNS-16).

BUMED INSTRUCTION 6320.104

From: Chief, Bureau of Medicine and Surgery

Subj: MEDICAL COGNIZANCE OF NAVY AND MARINE CORPS SERVICE MEMBERS
IN SUPPORT OF MEDICAL READINESS

Ref: (a) BUMEDINST 5450.183
(b) BUMEDINST 5450.184
(c) CNO WASHINGTON DC 051527Z Nov 21 (NAVADMIN 251/21)
(d) DHA-PI 6015.03
(e) BUMEDINST 6320.85A

Encl: (1) Medical Cognizance Maintenance Dashboard
(2) Medical Cognizance Assignment Guide

1. Purpose. To establish policies, procedures, and responsibilities for the assignment and performance of medical readiness support via medical cognizance (MEDCOG) and liaison functions for Department of the Navy (DON) Service members, Active Component (AC) and Reserve Component (RC), who require support from Navy Medicine Readiness and Training Commands (NAVMEDREADTRNCMD), either when they do not have an organic medical provider or when additional support is needed.

2. Scope and Applicability. This instruction applies to Naval Medical Forces Atlantic (NAVMEDFORLANT), Naval Medical Forces Pacific (NAVMEDFORPAC), and their subordinate NAVMEDREADTRNCMDs and Navy Medicine Readiness and Training Units (NAVMEDREADTRNUNIT).

3. Background

a. In 2007, the Chief of Naval Operations established two regional commands, NAVMEDFORLANT and NAVMEDFORPAC, under the command and control of Chief, Bureau of Medicine and Surgery (BUMED) to provide oversight for the execution of operational medical responsibilities in support of warfighter requirements, as outlined in references (a) and (b). The Navy Medicine regional commands are designated echelon 3 commands and maintain command and control of subordinate commands, to include the NAVMEDREADTRNCMDs and NAVMEDREADTRNUNITs.

b. BUMED has defined areas of responsibility (AOR) for medical readiness support to all Navy and Marine Corps commands. Reference (c) established MEDCOG support responsibilities for medical readiness for every unit in the Navy, both AC and activated RC, based on physical location. The purpose of this instruction is to ensure Service members and

commands who are either geographically remote, have a deficiency in medical providers, or are without an organic medical provider capable of performing medical readiness requirements, will have access to a provider via MEDCOG. See enclosure (1) for access to the MEDCOG dashboard. In some instances, the NAVMEDREADTRNUNITs or branch health clinics providing medical readiness support are located within the geographical areas of a NAVMED-READTRNCMD that is not their parent command. In these situations, the ultimate responsibility of the MEDCOG support for individual medical readiness (IMR) of commands within the catchment area of the subordinate NAVMEDREADTRNUNIT or branch clinic remains with the parent NAVMEDREADTRNCMD. See enclosure (2) for a full listing of inclusion and exclusion areas per NAVMEDREADTRNCMD. Medical readiness MEDCOG AOR divisions will be based on appropriate division of workload and NAVMEDREADTRNCMD based on staffing.

c. MEDCOG support responsibilities for medical readiness are prescribed to NAVMED-READTRNCMDs based on geographical location. Each NAVMEDREADTRNCMD utilizes their Operational Forces Medical Liaison Services (OFMLS) office, as well as the readiness clinics, to support all DON personnel within their MEDCOG. MEDCOG is the framework for OFMLS to provide medical liaison services to ensure access to care, quality care, and administrative support for remote line units and co-located line units. OFMLS serve as the primary point of contact (POC) for each NAVMEDREADTRNCMD.

d. The current AORs for MEDCOG assignments for medical readiness, as well as MEDCOG POCs for Navy Medicine regional commands and NAVMEDREADTRNCMDs, can be found at: https://esportal.med.navy.mil/bumed/rh/m3/M34/SMMR/PHA_Regional_POCs/.

e. NAVMEDREADTRNCMD and NAVMEDREADTRNUNIT support of medical readiness will vary based on the need of the Service member and the unit. A Service member or unit already having organic medical support or access to a Defense Health Agency medical treatment facility, is not a justification to deny medical support. Navy Medicine is most adept at handling medical administrative processes for the DON requirement, including but not limited to:

(1) IMR performance (e.g., labs or immunizations) and documenting and reporting in the IMR tracking system.

(2) Suitability assignment screenings.

(3) Family member travel screenings.

(4) Periodic health assessments.

(5) Deployment-related health assessments.

(6) Medical evaluation boards (i.e., limited duty, administrative separation conditions not amounting to a disability, Disability Evaluation System, Temporary Disabled Retired List).

(7) Assessment and screening Individual Ready Reserve members returning from active RC or active orders.

f. Reference (d) established guidance for providing medical readiness services to members of the RC.

g. Reference (e) provides information regarding MEDCOG of Navy and Marine Corps patients in non-naval health care facilities.

4. Responsibilities

a. Director, Operations (BUMED-N3) must:

(1) Maintain an up-to-date network of medical readiness MEDCOG POCs.

(2) Provide resources to regional commands and NAVMEDREADTRNCMDs to perform analysis on distribution of workload for medical readiness MEDCOG AOR assignments.

(3) Maintain MEDCOG unit assignments in the IMR tracking system(s) of record for purposes of MEDCOG-based medical readiness reporting.

(4) Provide resources and contact information to identify responsible NAVMEDREADTRNCMD or NAVMEDREADTRNUNIT providing medical readiness support for Service members.

b. Commanders, NAVMEDFORLANT and NAVMEDFORPAC must:

(1) Maintain command and subordinate commands' medical readiness MEDCOG POC list.

(2) Assign medical readiness MEDCOG AORs based on division of available resources for subordinate commands. Medical readiness MEDCOG AORs must be updated or validated on an annual basis.

c. Commanders and Commanding Officers, NAVMEDREADTRNCMDs. Must ensure up to date medical readiness MEDCOG POCs with appropriate readiness staff and OFMLS staff where available, with command duty phone numbers, and medical readiness MEDCOG group e-mail lists. MEDCOG POCs, confirmation of MEDCOG tracking and reporting capabilities, and issues or concerns regarding MEDCOG AOR assignment must be reported to the appropriate region on a quarterly basis.

5. Point of Contact. Questions may be e-mailed to Active and Reserve Medical Readiness Branch, Force Medical Readiness (BUMED-N34) at usn.ncr.bumedfchva.list.m34@health.mil.

6. Records Management

a. Records created as a result of this instruction, regardless of format or media, must be maintained and dispositioned per the records disposition schedules located on the Department of the Navy Directorate for Administration, Logistics, and Operations, Directives and Records Management Division portal page at <https://portal.secnav.navy.mil/orgs/DUSNM/DONAA/DRM/Records-and-Information-Management/Approved%20Record%20Schedules/Forms/AllItems.aspx>.

b. For questions concerning the management of records related to this instruction or the records disposition schedules, please contact the local records manager or the Department of the Navy Directorate for Administration, Logistics, and Operations, Directives and Records Management Division program office.

7. Review and Effective Date. Per OPNAVINST 5215.17A, BUMED-N3 will review this instruction annually around the anniversary of its issuance date to ensure applicability, currency, and consistency with Federal, Department of Defense, Secretary of the Navy, and Navy policy and statutory authority using OPNAV 5215/40 Review of Instruction. This instruction will be in effect for 10 years, unless revised or cancelled in the interim, and will be reissued by the 10-year anniversary date if it is still required, unless it meets one of the exceptions in OPNAVINST 5215.17A, paragraph 9. Otherwise, if the instruction is no longer required, it will be processed for cancellation as soon as the need for cancellation is known following the guidance in OPNAV Manual 5215.1 of May 2016.

8. Information Management Control. Reports required in subparagraphs 3e and 4c of this instruction are exempt from reports control per Secretary of the Navy Manual 5214.1 of December 2005, part IV, subparagraph 7k.
