BUMED NOTICE 1520

From: Chief, Bureau of Medicine and Surgery

Subj: ACADEMIC YEAR 2027 DENTAL RESIDENCY TRAINING AND
POSTDOCTORAL EDUCATION AND TRAINING

Ref: (a) NAVMED P-117
(b) OPNAVINST 6110.1L
(c) OPNAVINST 7220.17
(d) BUMEDINST 1520.41A
(e) DHA-PI 6015.100 of 22 December 2025
(f) DoD Instruction 6000.13 of 30 December 2015
(g) 10 U.S.C.

Encl: (1) Academic Year 2027 Advanced Dental Education Availability Announcement
(2) Sample Request Letter for Advanced Dental Education
(3) Application Checklist
(4) Summary of Active Duty Obligation for Graduate Dental Education

1. Purpose. To announce the availability and application procedures for the academic year (AY) 2027 dental residency training and postdoctoral education and training, per reference (a), chapter 6, article 6-17, and references (b) through (g), section 632.

2. Scope and Applicability. This notice applies to all Navy dental personnel applying for AY 2027 dental residency training and postdoctoral education and training.

3. Background. The Surgeon General of the Navy, who performs the duties of Chief, Bureau of Medicine and Surgery, will convene a selection board to recommend Dental Corps (DC) officers for assignment to full-time residency training programs and postdoctoral education and training programs in AY 2027. Full-time in-Service (FTIS) residency training programs are conducted at the Naval Postgraduate Dental School, Bethesda, Maryland (MD), various military hospitals, and other Federal institutions. A limited number of full-time out-Service (FTOS) residency and postdoctoral education and training programs are available in civilian universities and institutions.

4. Availability of Programs. Reference (a) describes Department of the Navy training programs for dental officers. The needs of the Navy determine the programs available for training and number of trainees projected for each program. Enclosure (1) lists the approved residency and postdoctoral educational programs beginning in AY 2027.

a. Residency Training Programs. In-Service residency training programs train dental officers for the needs of Navy and Marine Corps beneficiaries. Out-Service residency training programs supplement in-Service residencies or provide training in specialty areas not available in military training programs. All residency training programs must meet the American Dental Association Commission on Dental Accreditation certification requirements when applicable. Board certification is essential to specialty practice in Navy dentistry and dental officers selected for any residency program funded by the Navy, whether it is an in-Service or out-Service program, are expected to pursue board certification.

b. Fellowships. Based on the needs of the Navy, fellowships may be approved for specified specialties. All fellowship training programs must meet the American Dental Association Commission on Dental Accreditation certification requirements when applicable.

5. Eligibility for Application for Postgraduate Dental Education. Consideration of an officer's military record, clinical care background, assignments (particularly operational or overseas assignments), total years of active duty Service, and sustained superior military performance are an integral part of the duty under instruction (DUINS) board deliberations. Applicants for postgraduate dental training programs must be academically qualified and must meet the requirements listed in subparagraphs 5a through 5g:

a. Not be in a "failed to select" promotion status at the time of application for the grade of lieutenant commander (O-4) or commander (O-5). If an officer is a commander and has failed to select for captain (O-6), the officer may apply for training.

b. Be able to complete their incurred educational service obligation by age 62 or by the applicant's statutory retirement date.

c. Meet all physical readiness requirements, per reference (b).

d. Not be subject to or pending administrative separation, punishment under the Uniform Code of Military Justice or a civilian criminal conviction or involved in any type of action or activity considered to be misconduct.

e. Be worldwide assignable and willing and able to meet the needs of the Navy, even in the event of temporary separation from spouse, family, or significant other(s). Upon completion of training, the Service member, if so assigned, must accept an operational billet, including a ship or with the Marine Corps, or overseas billet. If a Service member's family does not meet overseas screening requirements, the Service member may be given unaccompanied orders to meet mission requirements.

f. Applicant must be on projected rotation date for the same calendar year the program starts. For hybrid programs such as the Master of Healthcare Delivery Science at Dartmouth, that do not require a permanent change of station no minimum time on station is required; however, officers should have sufficient time remaining in their current billet to complete the DUINS program. The Dartmouth opportunity is designed for officers tracking Executive Medicine with the intention of applying for a milestone.

g. DC officers who are in, or have completed residency, fellowship, or advanced clinical program training cannot apply to start a second residency until they have completed the training obligation for their current specialty designation. The only exception to this requirement are applications for oral and maxillofacial surgery (OMS) fellowships and the maxillofacial prosthetics fellowship. Additionally, to apply for a second residency, candidates must request a written release from their current specialty leader. Specialty leaders will consider projected manning levels to decide if release is authorized. The recommendation of the specialty leader will be forwarded by the Graduate Dental Programs office to the corps chief for final approval or denial of application for a second residency.

6. Application

a. Applications for graduate dental education must include the information listed in subparagraphs 6a(1) through 6a(13):

(1) Letter of Request. [Applicant submits] Applicant must write a letter of request using enclosure (2) as a template.

(2) Commanding Officer's or Dean's Letter of Endorsement. [Applicant submits] Applicant must obtain a letter of endorsement from their current commanding officer or dental school dean. The endorsement must be written on command or dean's letterhead and may be written as a simple endorsement or a full-length letter of endorsement, per the discretion of the author. This letter does not count as one of the candidate's three letters of evaluation.

(3) Statement of Motivation. [Applicant submits] Applicant must write a one-page statement explaining the reasons for requesting training and expound on what makes the applicant a qualified candidate. The statement must not be on letterhead stationery and must be in Times New Roman, 12 pitch, single spaced or double spaced with one inch margin for top, left, right, and bottom. The statement must not exceed one page in length and include a signature line, with signature, in the format listed:

Active Duty:

(Rank) (First Name) (Middle Initial) (Last Name), DC, [United States Navy (USN)]

Health Professions Scholarship Program and 1925i Program:

Ensign (First Name) (Middle Initial) (Last Name), DC, USNR

Health Services Collegiate Program:
(Rank) (First Name) (Middle Initial) (Last Name), USN

(4) Advanced Dental Education Application Brief Sheet. [Applicant submits] Complete and submit the NAVMED 1520/16 Dental Residency DUINS Application Brief Sheet available on the Navy Medicine Forms Web site, <https://www.med.navy.mil/Directives/NAVMED-Forms/>. Do not do an internet search for the NAVMED 1520/16. Outdated NAVMED 1520/16s found on the internet will not be accepted with the application package.

(5) Official Dental School and Graduate School Transcripts. [School must submit] Request an official transcript for dental school and other significant graduate education be sent directly to the Graduate Dental Programs office either electronically using the office e-mail: usn.bethesda.navmedleadprodevcmd.list.nmpdc-dental-corps-gp@health.mil, or using the address listed in this subparagraph. If electronic submission is allowed, but the agency does not accept the e-mail address, please contact the Graduate Dental Programs office for an alternate e-mail. Undergraduate college transcripts are not requested and will not be accepted.

Head, Graduate Dental Programs
Naval Medical Leader and Professional Development Command
Building 1, 16th Deck, Room 16125
8955 Wood Road
Bethesda, MD 20889-5628

(6) Integrated National Board Dental Examination (INBDE). [Testing Agency must submit] These are required ONLY from dental students. Send official results directly to the Graduate Dental Programs office via e-mail to usn.bethesda.navmedleadprodevcmd.list.nmpdc-dental-corps-gp@health.mil.

(7) Dental License. [Applicant submits] active duty applicants must possess and submit a copy of their current active unrestricted state dental license. The copy must be of the current active licensure that shows the expiration date. Military active, military exempt, or other restricted State dental licenses will not be accepted.

(8) Class Rank and Grade Point Average (GPA). [School must submit] If the dental school transcript does not provide a class rank, the applicant must request a letter from the dental school dean's office providing class rank or equivalent and include the GPA, if applicable. If the dental school does not rank students or provide a GPA, the dean's letter must state so and provide the applicant's GPA. This information may be included in the dean's letter of endorsement for dental student applicants or provided in a separate letter. This office will not accept e-mails or letters directly from the applicant reporting a class rank or GPA.

(9) Graduate Record Examination (GRE), Revised General Test, and the Advanced Dental Admission Test (ADAT). [Testing Agency must submit] The GRE and ADAT are not required but highly recommended for applicants without a dental school class rank or GPA. In some instances, the specialty leader may directly recommend that candidates take either the GRE or ADAT. GRE and ADAT results should be sent to the Graduate Dental Programs office and specialty leader. Candidates taking the GRE are to take the revised general test. Go to the Educational Testing Service (GRE section) Web site, <http://www.ets.org/gre>. Use code 0790 to send scores directly to “Navy Graduate Dental Programs.” Candidates taking the ADAT should go to: <https://www.ada.org/education/testing/exams/advanced-dental-admission-test-adat/apply-for-the-advanced-dental-admission-test-adat> and request scores be sent directly to “Naval Medical Leader and Professional Development Command.”

(10) National Board of Medical Examiners Comprehensive Basic Science Examination (CBSE). [Testing Agency must submit] This is for OMS applicants only. It is a mandatory testing requirement that OMS residency applicants take the CBSE. Active duty applicants who are in circumstances that cannot test can apply for a waiver through the OMS specialty leader. Exam results are to be sent to the Graduate Dental Programs office and the OMS specialty leader.

(11) Letters of Evaluation. [Evaluators must submit] A maximum of three evaluations may be submitted using the NAVMED 1520/17 Evaluation For Advanced Dental Education, available on the Navy Medicine Forms Web site. It is recommended that at least one evaluation be written by a dentist in the specialty area requested for training. It is strongly suggested that three separate evaluations be obtained to strengthen the application. If the narrative does not fit into the box provided, the writer must add “See Attached Letter” in the narrative box and include a separate sheet with the narrative. The additional page or pages must include the applicant’s name and the evaluator’s name. The evaluation must be signed by the evaluator in the appropriate block on the NAVMED 1520/17. Letters of evaluation are a sealed part of the board and are not available for viewing by the applicant, nor will they be released to the applicant. Evaluators must send the completed NAVMED 1520/17s directly to the Graduate Dental Programs office using the office e-mail to: usn.bethesda.navmedleadprodevcmd.list.nmpdc-dental-corps-gp@health.mil or by ground post to the address listed in subparagraph 6a(5) of this notice. In the event the form is not fillable, contact the Graduate Dental Programs office immediately. Do not do an internet search for the form, as outdated NAVMED 1520/17s will not be accepted.

(12) Certified True Copy (Front and Back) of Fitness Reports (FITREP) Covering the Last 5 Years as a Dental Officer. [Applicant submits] This is for active duty dental officers only. If the candidate does not have FITREPs covering 5 years, submit a copy of all FITREPs on file. Prior enlisted evaluations and non-dental officer FITREPs from prior Service are not requested and will not be included in the application package. Official copies of FITREPs can be downloaded from Bureau of Naval Personnel Online, but if a recent copy has not been posted to the site, the candidate can request a copy from the submitting command. It must be stamped as an official copy and signed by the authorizing administrator. Do not submit more than 5 years

of FITREPs. Any additional reports will be removed from the application. Remove or block out all social security numbers from the FITREPs before sending them to the Graduate Dental Programs office. Please include FITREP correction letters and FITREP letters of extension where applicable. There should not be gaps in the FITREP dates.

(13) Interview. Applicants must complete an interview as part of the application process. Arrange for an interview by contacting the specialty leader directly. Interviews do not have to be in person. The applicant is required to contact the specialty leader prior to submitting their application.

b. Additional information regarding the application.

(1) Curriculum vitae will not be accepted nor included in the application package. Candidates must use the statement of motivation to expound on items they consider important for the selection board to consider.

(2) Electronic submission of application materials is permitted and encouraged. Comply with the application checklist in enclosure (3) or subparagraphs 6a(1) through 6a(12) of this notice for submitting application materials. All electronic submissions must be submitted via e-mail to: usn.bethesda.navmedleadprodevcmd.list.nmpdc-dental-corps-gp@health.mil.

(3) Applications can also be mailed to the address listed in this subparagraph. Please note that it may take 3 weeks or more for items to reach this office via U.S. Postal Service. It is highly recommended that you utilize an express mail service of your choice with letter or package tracking and a delivery receipt.

Head, Graduate Dental Programs
Naval Medical Leader and Professional Development Command
Building 1, 16th Deck, Room 16125
8955 Wood Road
Bethesda, MD 20889-5628

7. Active Duty Obligation (ADO). ADO incurred and payback for graduate dental education is outlined in enclosure (4). If you have any questions in this regard, contact the Graduate Dental Programs office.

8. Dental Special Pays. Dental special pays for officers in residency programs complies with reference (c). The Navy's current FY Pay Guidance is located on the Bureau of Medicine and Surgery Special Pays Web site, <https://www.med.navy.mil/Special-Pays/>. In general, if you are eligible for either the general dentist retention bonus or the dental specialist retention bonus, you may be eligible to receive these during residency. There may be ramifications for other special pays as well. If you have any questions in this regard, contact the Dental Corps Career Planner.

9. Application Deadline. Applications must be received no later than 8 May 2026 or, if sent via mail, must be postmarked no later than 8 May 2026. Early submission is highly encouraged. It is the applicant's responsibility to verify receipt of all parts of the application by the Graduate Dental Programs office by the deadline. New applications postmarked later than 8 May 2026 will not be accepted without an endorsement from the specialty leader. It is the applicant's responsibility to contact the specialty leader directly and request a written endorsement. Applicants can use enclosure (3) to track application components prior to submission.

10. Notification. The AY 2027 DUINS Selection Board will meet in June 2026. Applicants will be notified of the board selection results by e-mail. Selectees must respond within 2 weeks to confirm or decline their acceptance; otherwise, the selectee risks relinquishing his or her appointment to an alternate selectee. Results will also be published in the Weekly Dental Update Special Edition once all applicants have been notified. If a DUINS selectee is unable to start their residency program on time, or requests a deferral for any reason, the position may be offered to an alternate, and the selectee may be required to reapply for the following AY DUINS cycle. These requests will be considered on a case-by-case basis to determine if the selectee can defer for a year or reapply for the following cycle.

11. INBDE Pass Requirement. Dental students who are selected for DUINS must pass the INBDE to start residency. Failure to pass 6 months prior to the start of residency will render the selectee ineligible to start residency training. This will result in the student being detailed to another assignment to allow sufficient time for an alternate selectee to be detailed into the vacant spot. Additionally, the student will not be granted a "pre-select" status for the following AY DUINS cycle and must re-apply for future training opportunities.

12. FTOS Program Selection. To be approved for this program applicants must be accepted to an educational institution that is authorized to accept government payments; therefore, applicants are strongly encouraged to apply to several institutions to ensure adequate options if selected.

13. FTOS Failure to Match. Applicants who are selected for FTOS programs by the DUINS board, but are unsuccessful in gaining admission to a civilian program, are placed in a "pre-select" status for the next AY DUINS board and are automatically enrolled in the corresponding FTIS or Tri-Service program for that AY, if one exists. These selectees do not have to re-apply for training. Applicants selected for FTOS programs in disciplines that do not have corresponding FTIS programs are not granted a "pre-select" status and must re-apply for future training opportunities. The exception is endodontic applicants who will not be placed in a "preselect" status for the next AY DUINS board.

14. Conduct During Residency. Dental officers in training programs are expected to maintain the highest standards of naval service. Misconduct, failure to remain within fitness standards, or poor academic performance are grounds for disenrollment from a program. Protocols for addressing these issues are outlined in references (d) and (e). In the event that a resident resigns, or is removed from residency before completing that residency, obligated service is still incurred for any time that was spent in training, per reference (f).

15. Failure to Select for Next Rank Prior To or During Residency. Dental officers selected for DUINS who become “fail to select” for promotion will be allowed to matriculate into their selected training program, and if already matriculated, will be allowed to complete their residency provided they are meeting the program requirements. Officers in the rank of lieutenant or lieutenant commander who are in a fail to select status for a second or greater time will be retained on active duty per reference (g), section 632 until their obligated service for training is fulfilled.

16. Master of Health Care Delivery Science. The 12-month Dartmouth Master of Health Care Delivery Science Program is a blended online and on-campus program, with three annual 2-week in-person sessions. Selected members remain under their current or prospective orders while participating. The interdisciplinary curriculum blends research and teaching from the Geisel School of Medicine and the Tuck School of Business. Naval Medical Leader and Professional Development Command will provide the funding for the program and in-person training. The commanding officer’s endorsement must state that the applicant is in a non-deployable status for the program duration and confirm support for the in-person sessions and approximately 15 hours per week of protected time for coursework. Dartmouth Master of Health Care Delivery Science graduates incur an ADO per reference (f), served consecutively with any prior ADOs. Candidates who are selected for the rank or are in the rank of O-5 and O-6 will be considered, and endorsements are required from the corps chief for an O-4. It is strongly preferred if the candidates are in any phase of slating in a command senior executive medicine or milestone position, a member of the Board of Directors at a medical treatment facility or at a Navy Medicine Readiness and Training Command, or program director. Selected candidates are required to apply for a command or milestone billet through the standard process, including screening and slating. For program details visit Web site, <https://mhcds.dartmouth.edu>.

17. Point of Contact. For questions concerning the application process contact the Naval Medical Leader and Professional Development Command, Graduate Dental Programs office at (301) 319-4509 or DSN 285-4509, or via e-mail: usn.bethesda.navmedleadprodevcmd.list.nmpdc-dental-corps-gp@health.mil.

18. Records Management

a. Records created as a result of this instruction, regardless of format or media, must be maintained and dispositioned per the records disposition schedules located on the Department of the Navy Assistant for Administration, Directives and Records Management Division portal page at <https://portal.secnav.navy.mil/orgs/DUSNM/DONAA/DRM/Records-and-Information-Management/Approved%20Record%20Schedules/Forms/AllItems.aspx>.

b. For questions concerning the management of records related to this instruction or the records disposition schedules, please contact the local records manager or the OPNAV Records Management Program (DNS-16).

19. Forms and Information Management Control

a. Forms. The NAVMED Forms listed are available at:
<https://www.med.navy.mil/Directives/NAVMED-Forms/>.

(1) NAVMED 1520/16 Dental Residency DUINS Application Brief Sheet.

(2) NAVMED 1520/17 Evaluation For Advanced Dental Education.

b. Information Control Management. The reports required in subparagraph 6a(12) are exempt from reports control per Secretary of the Navy Manual 5214.1 of December 2005, part IV, subparagraph 7j.

R. FREEDMAN
Acting

Releasability and distribution:

This instruction is cleared for public release and is available electronically only via the Navy Medicine Web site, <https://www.med.navy.mil/Directives/>

ACADEMIC YEAR 2027 ADVANCED DENTAL EDUCATION
AVAILABILITY ANNOUNCEMENT

Advanced Clinical Program Exodontia	1-year advanced clinical program or fellowship
Comprehensive Dentistry	2-year residency
Masters in Healthcare Delivery Science	1-year hybrid residency via Dartmouth
Endodontics	2-year residency (24 to 36-month FTOS authorized)
Maxillofacial Prosthetics Fellowship	1-year advanced clinical program or fellowship
Oral and Maxillofacial Pathology	3-year residency
Oral and Maxillofacial Radiology	3-year residency
Oral and Maxillofacial Surgery	4-year residency (6-year authorized)
Orofacial Pain	3-year residency or 2-year fellowship
Orthodontics	2-year residency (36-month FTOS authorized)
Pediatric Dentistry	2-year residency
Periodontics	3-year residency
Prosthodontics	3-year residency

BUMEDNOTE 1520
9 Mar 2026

SAMPLE REQUEST LETTER FOR ADVANCED DENTAL EDUCATION
(command letterhead not required)

Date

From: [Rank, Name, Corps of applicant, Service,]
To: Commanding Officer, Naval Medical Leader and Professional Development Command,
Graduate Dental Programs, Code 1WPGDC, 8955 Wood Road, Bethesda, MD
20889-5628
Via: Commanding Officer, [Activity Title] or Dean, (Name of Dental School)
Subj: ACADEMIC YEAR 2027 NAVY DENTAL CORPS ADVANCED DENTAL
EDUCATION
Ref: (a) BUMEDNOTE 1520 of 9 Mar 2026 (Canc: [Mar 2027])
(b) DoD Instruction 6000.13 of 30 December 2015

Encl: (1) Statement of Motivation

1. Per references (a) and (b), I request to be considered for assignment to residency training in (discipline), commencing in academic year 2027. I request to be considered for (insert specific program or programs you are applying): Primarily Full Time In-Service (FTIS), but will accept Full time Out-Service (FTOS) training; Primarily FTOS, but will accept FTIS training; or considered equally for FTIS and FTOS.
2. Enclosure (1) is provided for consideration. Other application requirements have been submitted or requested as required. I have arranged for an interview with the appropriate specialty leader as directed.
3. If this request for residency training is approved, and I am assigned to such training, I agree not to resign during the residency and to serve in the Navy for my service obligation plus any previously unfulfilled service obligation after completion of the residency course. I understand my service obligation for the requested primary residency to be [__]-years service obligation per enclosure (4) of reference (a). This will be served in conjunction with any unfulfilled service obligation existing prior to the start of the residency program. I understand that this period of service obligation is in addition to that for which I may be previously and otherwise obligated and it may or may not be performed concurrently per reference (b).

PRIVACY ACT STATEMENT

Data Required by the Privacy Act of 1974

Authority: Sections 2005 and 2013 of Title 10, U.S. Code

Principal Purpose: To evaluate applicant's qualifications for selection to participate in Naval Postgraduate Dental Education.

Enclosure (2)

Head, Graduate Dental Programs
Naval Medical Leader and Professional Development Command
Building 1, 16th Deck, Room 16125
8955 Wood Road
Bethesda, MD 20889-5628

SUMMARY OF ACTIVE DUTY OBLIGATION
FOR GRADUATE DENTAL EDUCATION

1. In a 2-year or Longer Graduate Dental Education (GDE) Training Program. A member will incur an active duty obligation (ADO) of half year for each half year of training, or portion thereof, but the minimum ADO at the completion, termination, or withdrawal of the GDE period will not be less than 2 years.
2. In an Advanced Clinical Program. A member training in a 1-year advanced clinical program incurs a 2-year ADO.
3. Fellowship Training in a Military or Civilian Facility. The minimum ADO for training is 2 years. Payback is consecutive with prior GDE (residency) ADO.
4. In a Master's or Doctoral Degree Program. Programs leading to a master's degree (which require additional training or funding such as the Dartmouth Masters in Healthcare Delivery Science) or a doctoral degree incur an ADO of 3 years for the first year, and then an ADO of half year for each half year, or portion thereof for training beyond the first year. If the master's or doctoral degree is incidental to the completion of an established residency or fellowship, there is no additional incurred ADO for that degree.
5. In a Military Facility (FTIS or other Federal institution). The ADO for GDE may be served concurrently with obligations incurred for Department of War (DOW)-sponsored pre-professional (undergraduate) or dental school education. No active duty obligation for GDE can be served concurrently with ADO for a second period of GDE, i.e., obligation for fellowship or second Navy-sponsored residency cannot be served concurrently with an obligation incurred for initial residency training.
6. In a Civilian Facility on Active Duty FTOS. A member subsidized by the DOW during training in a civilian facility must incur an ADO of half year for each half year, or portion thereof, but the minimum ADO at the completion, termination, or withdrawal of the GDE period will not be less than 2 years. ADOs for FTOS training are added to obligations existing at the time training begins and served consecutively.
7. In a Civilian Facility in a Deferred Status (Navy Active Duty Delay for Specialists). A member deferred for specialty training incurs no additional obligation as long as a 2-, 3-, or 4-year obligation exists at the time the training begins. Members with less than 2 years of ADO will incur a 2-year minimum term of Service.
8. No portion of an ADO may be satisfied as listed:
 - a. By prior military Service.
 - b. During any period of long-term health or health-related education or training.

BUMEDNOTE 1520
9 Mar 2026

c. Concurrently with any other ADO which includes accession bonus ADO, or with an obligation incurred for DOW-subsidized pre-professional (undergraduate) education or training, or prior long-term health or health-related education or training, unless otherwise specified in the references of this notice.

Please Note: If any of the information contained herein is unclear, or questions regarding how existing pay, education, or other obligations could be affected by residency training and the ADO incurred, contact the Head, Graduate Dental Programs at this e-mail with your questions to: usn.bethesda.navmedleadprodevcmd.list.nmpdc-dental-corps-gp@health.mil.
