124th ANNIVERSARY OF THE HOSPITAL CORPS

Established 17 June 1898

The **Hospital Corps** became a formal unit of the Navy Medical Department under the provisions of an act of Congress approved **17 June 1898** signed into law by President William McKinley. This act provided for appointment to the warrant rank of pharmacist and established the following ratings: Hospital Steward (E-7), Hospital Apprentice First Class (E-3) and Hospital Apprentice (E-2).

From that date to the present, either generically or by rating title, the Navy's medical Sailors have been called "Hospital Corpsmen."

- At 24,000+ the Hospital Corps is the largest occupational enlisted rating and most highly decorated enlisted rate in the U.S. Navy.
- Stories abound of hospital corpsmen's heroic and selfless actions on the battlefields of Belleau Wood, Iwo Jima, Okinawa, Khe Sanh and Fallujah.
- To date, Hospital Corpsmen have been the recipients of 22 Medals of Honor, 199 Navy Crosses and some 984 Silver Stars.

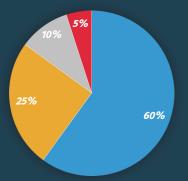

Corpsmen Readiness starts with Training

The Basic School:

- 3,500+ HMs graduate from "A" School Medical Education and Training Campus, San Antonio, Texas.
- Each class lasts 14 weeks. Foundational training includes: shipboard training, litter bearer, nursing care, and TCCC.

Where newly minted HMs go:

- 60 percent go to Naval Hospital/Navy Medicine Readiness & Training Commands (NMRTC)
- 25 percent go to "C" School (Technician's School)
- 10 percent go to the Field Medical Training Battalion (to become Field Medical Technicians)
- 5 percent go to Hospital Corps Trauma Training (HMTT)

NOTABLE HOSPITAL CORPSMEN:

- Hospital Apprentice Robert Stanley First HM to receive the Medal of Honor (1901)
- Pharmacist's Mate Third Class John Henry Litchfield – First Corpsman to serve as namesake of warship (1919)
- Pharmacist's Mate First Class Wheeler Lipes –
 First IDC to perform an appendectomy aboard a
 submarine in enemy waters (1942)
- Pharmacist's Mate Third Class John Andrew Haskins – Hero of Port Chicago Disaster (1944)
- Hospital Corpsman First Class Ruth Flora First active duty female HM in U.S. Navy (1948)
- HMCM Robert Swartout First Force Master Chief of the Hospital Corps (1971)
- Hosptial Corpsman First Class Luis Fonseca Hero of Battle of An Nasiriyah (2003)
- FORCM Michael J. Roberts Force Master Chief and Director of the Hospital Corps (2020-Present)

NAVY MEDICINE FAST FACTS

HOSPITAL CORPS SHIP NAMESAKES:

- There are 22 ships named in honor of Hospital Corpsmen.
- The latest Hospital Corps ship namesakes are the Arleigh Burke-class guided missile destroyers USS William Charette (DDG-130) and USS John Kilmer (DDG-134).

NAVAL HEALTH RESEARCH CENTER (NHRC), SAN DIEGO, CA

READINESS THROUGH RESEARCH

- Established 1 June 1959 as the Naval Medical Neuropsychiatric Research Unit in San Diego, California
- Redesignated the Naval Health Research Center (NHRC) in 1974
- Mission: To optimize military operational readiness through cutting-edge research in support of warfighters, veterans, and family health

NHRC Recent Highlights:

Infectious Disease:

- First DoD lab to validate the CDC SARS-CoV assay, >50K SARS-CoV tests for local MTFs, Fleet and FMF
- Established 1st INDOPACOM testing sites at NH Yokosuka and at NH Guam
- West Coast DoD COVID sequencing laboratory
- Developed Pooling Studies/Algorithms for COVID White House Task Force/JPEO; deployed fleet-wide
- Led Outbreak Investigations (influenza, Group A Strep, COVID)

Human Performance:

- Shipboard Crew Status using wearables and early biomarkers of fatigue / febrile disease / mental health
- Integration of females into USMC basic/infantry training; reduced injury in basic/infantry training
- Lethality—major doctrinal changes in USMC marksmanship training—sustained improvement in speed and accuracy of fire
- Ship crew performance/mental health rapid evaluation and feedback aboard USS George Washington (CVN-73) response

Medical Planning:

- Designated JCS medical planning tools
- Authorized Medical Allowance List (AMAL) modernization

BATTLE OF MIDWAY 80th ANNIVERSARY

- 4 June 2022 marks the 80th anniversary of arguably the most pivotal naval battle in history.
- The Japanese carriers that had launched the sneak attack on our Pacific fleet at Pearl Harbor had been destroyed or seriously damaged along with the best pilots of the Imperial Navy. The one day battle reversed the tide of war in the Pacific.
- As crewmen on the ships at Midway, Navy physicians, dentists, pharmacists, administrators and Hospital Corpsmen manned battle stations and sick bays during the heat of the battle—and the lulls in between.

Composition of Forces:

- U.S. Navy: 3 Carriers, 25 Support Ships, 360 Carrier and Land-Based Aircraft
- Japanese Imperial Navy: 4 Carriers, 2 Battleships, 15 Support Ships, 248 Carrier Aircraft, 16
 Floatplanes

American Losses:

- Navy and Marine Corps Casualties: 547
- Navy and Marine Corps Fatalities: 307
- One carrier sunk (Yorktown), one destroyer sunk (Hammann), and 150 aircraft destroyed

Japanese Losses:

- Japanese Fatalities: 3,000+
- Four carriers sunk, one cruiser sunk, and 248 aircraft destroyed

Navy Medical Heroes:

- Lt. (j.g.) Edward Augustus Kearney, MC, USN, USS Yorktown (CV-5) Silver Star recipient
- Lt. (j.g.) John H. Peterson, MC, USN, USS Hammann (DD-412) Silver Star recipient
