

Navy Bloodborne Infection Management Center

NBIMC NEWSLETTER

JUNE 2022

The Navy Bloodborne Infection Management Center (NBIMC) has been experiencing staffing shortage since two NBIMC senior employees retired in December 2021. These changes have significantly affected NBIMC's response times to our customers. Please be assured that we are working on solutions to our staffing challenges and intend to provide you with the best customer service under the current circumstances. There will/may be delays in our work products and response times, and we respectfully ask for your continued patience.

Please address inquiries to:
Navy Bloodborne Infection
Management Center:
dha.bethesda.ncr-medical.mbx.nbimc@mail.mil

Department Head
Phone: 301-295-6590
Bldg 17B, 3rd floor, Suite 3G

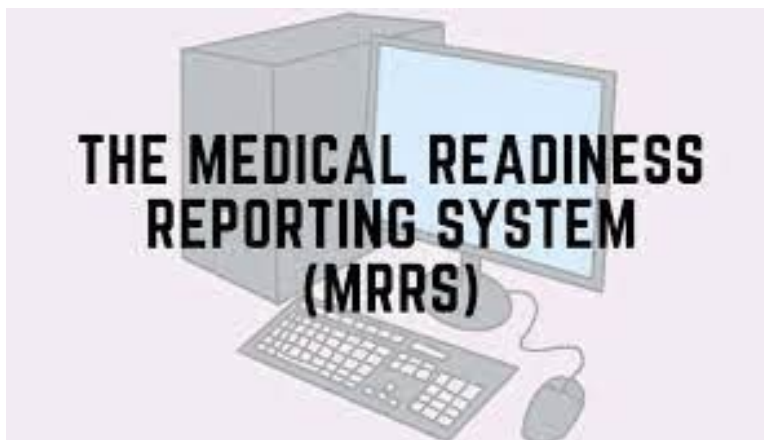

Important Message for ALL MRRS users

New Application updates have been implemented. Click on the 31-May-2022 link under MRRS Updates for details.

Due to the announcement that Microsoft will no longer support Internet Explorer (IE). Until further notice, please use CHROME to access MRRS. If you are running MRRS on an NMCI machine, NMCI has EDGE in IE mode.

Also, to ensure you have the latest updates, please clear your cache

If you are experiencing issues regarding MRRS updates, please contact NBIMC at dha.bethesda.ncr-medical.mbx.nbimc@mail.mil

TIP SHEETS FOR MHS GENESIS

In this edition, we have included an attachment to inform you about the new MHS Genesis Displays for HIV results. The new display has additional information that have not been typically included in previous views. Please don't hesitate to contact NBIMC at dha.bethesda.ncr-medical.mbx.nbimc@mail.mil for questions.
