Blue H – Navy Surgeon General's Health Promotion and Wellness Award Submission Review Form

Conducting this review will increase the chances your submission is complete and correct. Ensuring all items are correct will save time.

The naming convention is **critical** for each main document below should be command acronym and type of document (i.e. NMCPHCWorksheet, more examples below); there should be no spaces in the name.

2020 December Changes:

- It was necessary to change the criteria sheets and submission process late in the year in an effort to avoid potential complications due to pandemic and computer concerns. The criteria themselves have not been changed, however the changes made due to pandemic and Health Risk Assessment (HRA) challenges have been incorporated to lessen confusion.
- There was a good chance that the Blue H Webtool would not be accessible to everyone, so we have replaced it. The new "Dec" criteria sheets have hidden tabs to help us populate a new data base, so scanned versions will not be accepted.
- A link to a CAC-enabled website to upload all documents will be on the webpage on Jan 1, 2021. You no longer need to email documents or request access! PLUS, things like training certs will not need to be uploaded every year!
- A new HPW Address and POC worksheet is added to help us better ensure correct addresses and Blue H point of contact (POC's) are received. It includes at least two POC's to increase chances of information getting where it needs to be.

Review should include:

1.	Worksheet (required): The purpose of the worksheet is to enable the applicant to plan and track activities during		
	the year and to brief leaders on the state of their health promotion program. The worksheet is also the main		
	component of the Blue H package and now replaces the previous online webtool.
