

NAVY AND MARINE CORPS FORCE HEALTH PROTECTION COMMAND ENVIRONMENTAL PROGRAMS DIRECTORATE

ACCIDENT PREVENTION PLAN CHECKLIST

The Department of the Navy's February 2018 Environmental Restoration Program (NERP) Manual (Chapter 17) requires contractors, based on contract requirements, to develop site-specific Accident Prevention Plans (APPs) for environmental restoration projects. The APPs must meet the requirements of the U.S. Army Corps of Engineers (USACE) Safety and Health Requirements Manual, EM 385-1-1. The Navy and Marine Corps Force Health Protection Command (NMCFHPC) is providing the following links to the U.S. Army Corps of Engineers (USACE) Abbreviated APP Checklist (Form A-01) and the Fully-Developed Accident Prevention Plan (APP) Checklist (Form A-02).

USACE Abbreviated APP Checklist (Form A-01):

<https://www.usace.army.mil/Portals/2/docs/Safety/EM%20385-1-1,%202014%20Sections/Checklists/CESO%20Checklist%20A-01%20AbbrevAPPFINAL.pdf>

USACE Fully-Developed APP Checklist (Form A-02):

<https://www.usace.army.mil/Portals/2/docs/Safety/EM%20385-1-1,%202014%20Sections/Checklists/CESO%20Checklist%20A-02%20Accident%20Prevention%20Plan.pdf>

The checklists meet the requirements of the current version of the USACE EM 385-1-1, dated 30 November 2014, and are invaluable tools to guide site-specific APP development. The order of the checklists mirror the format presented in Appendix A of EM 385-1-1. Specific criteria for helping to determine whether a Fully-Developed APP or an Abbreviated APP is applicable are provided in Section 01.A.12 and Appendix A of EM 385-1-1.

July 2018

All possible and applicable regulatory requirements unique to your APP are not cited in the checklists. Additional federal regulatory requirements may also apply to the required applicable plans and procedures that comprise a significant portion of the APP. These additional regulatory requirements are cited in the specific EM 385-1-1 plans and procedures referenced in the checklists. The checklists are not a substitute for the knowledge and experience of professional safety specialists and industrial hygienists. A qualified safety and health specialist and/or an industrial hygienist should carefully review each APP to determine the full scope and applicability of all regulations.

We hope the checklists are useful to you. Please feel free to share it with others, especially your contractors. We welcome suggestions for improvement or presentation on any aspect of the checklists. Please feel free to e-mail your comments to: Mr. Bob Hayes, Harold.r.hayes.civ@health.mil.
