FOR MEDICAL SCHOOL STAFF MEMBERS:
HOW TO REGISTER FOR A MODS ACCOUNT

MODS is the system the United States military uses for Graduate Medical Education applications. It is an online application similar to ERAS. Please follow the steps below to create an account.

1. Go to the MODS website: https://education.mods.army.mil/MEDED/UserLogon/UserLogon.asp
2. Choose service (Navy)
3. Fill in your name, phone, and email
4. Choose "GME" for program
5. Choose Medical School Official
6. Click submit

After your account is approved by a member of the Navy Graduate Medical Education team, you will be authorized to upload documents on behalf of your medical student(s). Please write down your MODS Login ID and Password.

Uploaded documents are stored in a secure location that only the selection board members can view. The applicant does not have the ability to view documents uploaded to their MODS application by a third party.
