Naval Survival Training Institute (NSTI)

Purpose: To assist the joint warfighter in winning the fight by providing safe, effective, and relevant human performance and survival training for all DoD personnel.

Locations: Patuxent River, Norfolk, Cherry Point, Jacksonville, Pensacola, Miramar, Lemoore, Whidbey Island

Naval Undersea Medical Institute (NUMI)

Purpose: To provide training in Undersea Medicine and Radiation Health to officers and enlisted Sailors, who will support warfighters in the Submarine Force; to provide Naval consultation in Undersea Medicine and Radiation Health.

Location: Groton, CT

Surface Warfare Medical Institute (SWMI)

Purpose: To provide global medical support, training and consultation for Surface Forces on all issues regarding afloat operations. Coordinates and performs operational readiness training, LCAC Medical Screening, reference publication, course execution and curriculum revision.

Location: Norfolk, VA & San Diego, CA

Naval Expeditionary Medical Training Institute (NEMTI)

Purpose: To provide instruction on the assembly, disassembly, establishment of command structure, basic operations, medical operations and Collective Protection Systems of an Expeditionary Medical Facility. Also provides instruction of deploying medical forces to Role I & III operations. Provides stabilization trauma care experience at the Navy Trauma Training Center located at Los Angeles County USC Medical Center.

Location: Camp Pendleton, CA / Los Angeles, CA

Naval Special Operations Medical Institute (NSOMI)

Purpose: To conduct combat medical training for Special Operations Forces to include Recon Corpsman, SEAL and Surface Warfare Combatant-Craft Crewman (SWCC) Medics under U.S. Special Operations Command (USSOCOM)

Location: Fort Bragg, NC

Naval Aerospace Medical Institute (NAMI)

Purpose: To support Navy and Marine Corps aviation units through expert Aeromedical consultation services. Development, application of aeromedical standards, and training of aeromedical personnel for operational assignments.

Location: Pensacola, FL

NAMI: Robert E. Mitchell Center (REMC) for Repatriated Prisoner of War (RPOW) Studies

Purpose: The Mitchell Center provides annual clinical evaluations and conducts follow up studies of RPOWs from Vietnam, Desert Storm and OIF, in order to evaluate the mental and physical effects of captivity and delineate the predictors of repatriate resilience.

-
1. Performs more than 200 RPOW evaluations each year for members of all services as well as the State Department.
 2. Functions as the only longitudinal study of RPOWs.
 3. SECNAV directed the creation of the Mitchell Foundation, a private 501C3 corporation, to help support the Center's research efforts.
