

**CLEARANCE FOR NONMILITARY/NONAIRCREW PERSONNEL
TO FLY IN USN/USMC AIRCRAFT**

THIS FORM SHALL BE PROVIDED BY THE FLIGHT APPROVING AUTHORITY

TO THE APPLICANT PLEASE READ CAREFULLY: You are requesting clearance to fly in military aircraft as a non-aircrew observer. Prior to flying, you are required to complete aviation physiology and aviation water survival training. These training programs require a high level of fitness and stamina. You will be required to complete training in complete flight gear, including helmet, gloves, boots, flight suit, parachute harness, and survival vest. Training includes a 25-yard surface swim, treading water for 2 minutes, drown proofing for 2 minutes, and orally inflating your life preserver. Underwater egress training requires you to swim 15 yards underwater in a flight suit and boots. Additionally, you will receive hypoxia recognition training in a hypobaric chamber to simulated altitude of 25,000 feet. Actual flight may be in high performance ejection seat aircraft capable of sustained high g-force maneuvering. To obtain clearance to fly in military aircraft, you are required to obtain a physical examination from your personal physician at your expense. Please fill out the medical questionnaire and have your physician fill out the physical examination section of this form. You must then present this completed form to a Navy Flight Surgeon for endorsement for training and flight.

- | YES | NO | Medical Questionnaire - Do you have or have you ever had: |

TO THE EXAMINING PHYSICIAN

This person is seeking clearance to fly military aircraft as a non-aircrew observer. He or she will be required to complete aviation physiology and water survival training. These training programs are designated as High Risk Training (described on the front of this form) and require a high degree of physiology and psychological stamina. Completion of these training programs may lead to actual flight in high performance ejection seat aircraft capable of sustained high G-force maneuvering. The purpose of this evaluation is to clear this individual for the required training as well as actual flight.

Please Complete and Elaborate on all Abnormal Findings and Positive Responses

Height _____ Weight _____ Temp _____ Pulse _____ Resp _____ B/P _____

Corrected Visual Activity: Right _____ Left _____ Hearing : (Normal/Abnormal) _____

HGB or HCT _____ Urinalysis: Glucose _____ Protein _____ Ketone _____ Sp. Gravity _____

EKG (within last 12 months) _____ Chest XRAY (within last 3 years) _____

NL ABN

Elaboration and Comments

HEENT (include eustachian tube patency)

Heart and Vascular

Chest and Lungs

Abdomen, Genitalia and Hernia

Spine, Extremities and Musculoskeletal

Neurological

Mental Status

This Person is medically fit to participate in required aviation physiology and water survival training as well as actual flight in high performance military aircraft.

Examining Physicians Signature _____ Date _____

Flight Surgeons Endorsement: Type Aircraft _____ Qualification: PQ NPQ
for physiology and water survival training, and flight in military as a selected passenger.
