Ask about your Command Ombudsman

The Navy Family Ombudsman Program promotes healthy, self-reliant families.

An Ombudsman is an official representative of the Commanding Officer and plays a vital role in establishing and maintaining current and accurate communication between the command and its family members.

Ombudsman Roles
The Ombudsman is a volunteer, appointed by the commanding officer, to serve as an information link between command leadership and Navy families. Ombudsmen are trained to disseminate information both up and down the chain of command, including official Department of the Navy and command information, command climate issues, local quality of life (QOL) improvement opportunities and “good deals” around the community.

Ombudsman also provide resource referrals when needed. They are instrumental in resolving family issues before the issues require extensive command attention.
A few of the things you will learn...

- The importance of checking into all of the resources available to Navy spouses, like Fleet & Family Support Center, Navy-Marine Corps Relief Society, Chaplain, Ombudsman, etc.
- New phone numbers to call for information.
- How to make moving more efficient.
- You’re not the only Navy spouse that doesn’t know acronyms!
- Better communication.
- How to better help families deal with deployments.
- A good way to look at financial matters, especially credit cards.
- Learn about local things for children to do.
- Learn "what to wear" and Navy traditions.
- Deployment can be a positive, self-fulfilling event - support is available!
- How to read an LES and what’s on the LES.
- Learn about web sites that you can get information from.

REQUIREMENTS FOR PET REGISTRATION ABOARD N.A.S LEMOORE

All cats and dogs residing on NAS Lemoore are required to be spay/neutered and registered through the Veterinary Treatment Facility. This helps to ensure that all lost pets will be returned to owners and that pets receive a standard minimum of preventive medical care.

The current requirements include:

1. **PROOF OF CURRENT RABIES VACCINATION** – This is the rabies certificate (not the tag worn on the collar) identifying the animal, the date of vaccination, expiration date, vaccine serial number, etc. The rabies vaccine can only be given by a licensed veterinarian. In California, puppies and kittens must be four (4) months of age to receive this vaccine; the first vaccine is valid up to one (1) Year. Laws vary for other states, so be sure to check with your veterinarian when you PCS.

2. **CURRENT BOOSTER VACCINES** – This includes the yearly distemper/parovirus combination shot for dogs and yearly distemper combination shots for cats. Puppies and kittens should receive a series of three (3) of these vaccines at eight (8), twelve (12), and sixteen (16) weeks. **Call the clinic if you are uncertain about your pet’s vaccination history.**

3. **MICROCHIP IDENTIFICATION** – This is the tiny device, about the length of a grain of rice, which is injected under the skin, between the shoulders. No incisions are necessary and the procedure takes just a few seconds. It is a permanent identification method used worldwide by both civilian and military people to assist in returning lost pets to their families. An electronic scanner is passed over the pet’s shoulder and if a chip is present that animal’s unique number appears. This number can be reported to the vet clinic, which keeps track of all pets’ registration on base. Make sure you keep all information accurate with the microchip company. (Base Vet provides walk in service for microchipping)

4. **A MEDICAL RECORD AT THE VETERINARY TREATMENT FACILITY** – Owners are welcome to utilize any veterinarian of their choice, as long as a record of current vaccinations is kept at the VTF while the animal resides in housing. **If you have any questions registering your pets, don’t hesitate to call the Veterinary Treatment Facility at (559) 998-2753. Hours of operation are Monday – Friday 0800 – 1600.**

5. **A KINGS COUNTY LICENSE** – Dogs are required to have a county license, which can be obtained by taking your dog’s current rabies vaccine certificate to the **King’s County Animal Services,** located at: 10909 Bonneyview Ln Hanford, CA; (559) 582-3211 x2525

6. **PHOTOGRAPH OF PET IN OFFICE** - Pictures may be emailed to cpennington@lpsi.com. (Include address and last name in email subject line.)

The Department of Defense takes great pride in the variety and quality of services provided to children and youth on installations worldwide. While the services provided may vary by location, the standards and quality of services are consistent and meet established regulations.

**Child development centers**

Child development centers generally offer child care for children ages 6 weeks to 5 years. Care is available Monday through Friday, with some locations offering options, such as extended hours, weekend care and respite care. Child development centers vary in size and larger installations may operate multiple facilities. Programs are certified by the Department of Defense and accredited by a national accrediting body, such as the National Association for the Education of Young Children.

**Family Child Care (FCC)/ Child Development Homes (CDH)**

Children ages 6 weeks to 12 years may receive care in the private home of a certified care provider living in government-owned or leased housing. Care may also be provided in a state-licensed home in the community. In-home child care is typically available weekdays and with additional care provided during evenings, weekends and flexible hourly care for shift work. Regulations limit the number of children who receive care at any one time to no more than six children under age 8 and no more than two children under age 2. Family child care/CDH providers must be certified to operate by the installation. Individual providers may voluntarily seek national accreditation from the National Association of Family Child Care and are provided local support, training and materials to accomplish this goal.

**School-age programs**

School-age programs provide care to children in kindergarten through sixth grade. Care is offered before and after school, during non-school days and summer vacations. School-age programs may be located in Department of Defense youth centers, child development centers or in other suitable facilities. All programs are certified by the Department of Defense and accredited by a national accrediting body, such as the Council on Accreditation.

**Youth programs**

Dynamic programs for youth ages 5 through 18 years are provided in approximately 300 youth and teen program facilities worldwide. A wide variety of offerings includes activities in physical fitness and sports, the arts, life skills, career and volunteer opportunities. Installation programs may also collaborate with other youth-serving organizations, like the Boys & Girls Clubs of America and USDA/4-H programs.
Waiting lists

Military families may be placed on a waiting list for child care when care is not available. Families may request child care by visiting MilitaryChildCare.com. This Department of Defense website serves all military families seeking child care and provides access to military-operated child care options world-wide. Families may search for and request care, manage their requests, and update their profile online, making it easier for them to find the child care they need.
