Department of the Navy
NAVMED P-117
CHANGE 107

Subj: Off-duty Remunerative Professional Employment (Regulatory)

1. General. Off-duty remunerative professional civilian employment, including self-employment (hereto referred to as off duty employment) of active duty Medical Department officers is subject to policies herein stated by the chief, Bureau of Medicine and Surgery, and policies applicable to all members of the naval service as stated by the Secretary of the Navy (SECNAVINST 5370.2 series) and the Chief of Naval Personnel (BUPERSMAN 34205000). No Medical Department officers on active duty shall engage in any off-duty employment without first obtaining the permission of the commanding officer.

2. Guideline

a. Medical Department officers on active duty are in a 24-hour duty status and their military duty takes precedence on their time, talents, and attention.

b. Permission for an officer to engage in off-duty employment shall be based on a determination by the commanding officer that the permission requested is consistent with these guidelines and that the proposed employment will not interfere with the officer's military duties. If approved, employment will normally not exceed 16 hours per week. Periods in excess of 16 hours per week can be authorized only if the commanding officer finds that special circumstances exist which indicate that no conflict with military duties will occur, notwithstanding the addition hours. Permission to engage in off-duty employment may be withdrawn at any time.

c. A Medical Department officer in off-duty employment shall not assume primary responsibility of the care of any critically ill person on a continuing basis as this will inevitably result in compromise of responsibilities to the patient or the primacy of military obligations.

d. Medical Department officer trainees are prohibited from off-duty employment. Other Medical Department Officers are discouraged from off-duty employment. No officer shall request or be granted administrative absence for the primary purpose of conducting off-duty employment.

e. Off-duty employment shall not be conducted on military premises, involve expense to the Federal government, nor involve use of military equipment, personnel, or supplies. Military personnel may not be employed by Medical Department officers involved in off-duty employment.

f. Off-duty employment shall not interfere, nor be in competition, with local civilian practitioners in the health professions and must be carried out in compliance with all applicable licensing requirements. To ensure this, a statement shall be provided from the appropriate local professional association indicating that there is a need for the individual's service in the community. Local licensing requirements are the responsibility of officers wishing to engage in private practice. Those engaging in private practice are subject to all requirements of the Federal Narcotic law, including registration and payment of tax.

g. There may be no self-referral from the military setting to their off-duty employment on the part of military Medical Department officer.

h. No Medical Department office on active duty in off-duty employment may solicit or accept a fee directly or indirectly for the care of member, retired member, or dependent of such members of the uniformed services as are entitled to medical or dental care by those services. Indirect acceptance shall be interpreted to include those fees

collected by an emergency room or walk-in clinic staffed by military medical officer. Entitled members must be screened and identified as such by the facility and their charges reduced to reflect that portion of the charges which are accounted for by the military medical office's services. Nor may such a fee be accepted directly or indirectly for the care of Department of Veterans Affairs beneficiaries.

i. The Assistant Secretary of Defense (Health Affairs) has decreed that it will be presumed that a conflict of interest exists and hence, CHAMPUS payments will be disallowed in any claim of a CHAMPUS provider who employs an active duty military member or civilian employee. The only two exceptions are:

(1) Indirect payments to private organizations to which physicians of the National Health Service Corps (NHSC) are assigned (but direct payments to the NYSC physician would still be prohibited).

(2) Payments to a hospital employing Government medical personnel in an emergency room provided the medical care was not furnished directly by the Government personnel.

j. Subsidiary obligations arising out of off-duty employment, such as appearances in court or testimony before a compensation board, which take place during normal working hours, shall be accomplished only while on annual leave.

k. These guidelines do not apply to the provision of emergency medical assistance in isolated instances. Also excluded are non-remunerative community services operated by nonprofit organizations for the benefit of all the community and deprived persons, such as a drug abuse program, program volunteer, venereal disease centers, and family planning centers.

l. Medical Department officers are expected to be aware of and comply with all other status and regulations pertaining to off-duty employment. Where doubt exists as to whether all applicable constraints have been considered, consultation should be effected with the local naval legal service office.

3. The local command has primary responsibility of control of off-duty employment by Medical Department officers. Guidelines above serve as a basis for carrying out this responsibility.

4. Medical Department officer requesting permission to engage in off-duty employment shall submit their request to the commanding officer on NAVMED 1610/1, Off-duty Remunerative Professional civilian Employment Request, and shall sign the Statement of Affirmation thereon in the commanding officer's presence or designee. Approval or disapproval by the commanding officer shall be indicated in the appropriate section of NAVMED 1610/1. Medical Department officers shall advise their off-duty employers that as military members they are required to respond immediately to call for military duty that may arise during schedule off-duty employment. The commanding officer's approval of an officer's request for off-duty employment may not be granted without written certification from the off-duty employer that he or she accepts the availability limitations placed on the Medical Department officer.

5. The requester shall inform the commanding officer in writing of any deviation in the stated request prior to the inception of any such changes.

6. Permission shall be withdrawn at any time by the commanding officer when such employment is determined to be inconsistent with the above guidelines. Where permission is withdrawn the officer affected shall be afforded an opportunity to submit to the commanding officer a written statement containing the Medical Department officer's views or any information pertinent to the discontinuance of the employment.

7. Reports are not required to be submitted to BUMED by field activities. However, during Medical and Dental Inspectors General visits or other administrative onsite visits, local command compliance with this article will be reviewed. In addition, adequate records should be maintained to provide summarized information as may be necessary for monitoring and evaluating the functioning of this program by BUMED or higher authority.

PRICING SHEET
SOLICITATION NUMBER: N6264920Q0020
POSITION TITLE: RN Case Manager

PERIOD OF PERFORMANCE: Services are initially required from **16 December 2019 through 15 December 2020, with one option year.** The Contracting Officer reserves the right to adjust starting and ending dates of performance contingent upon actual award date. Unless you submit a written objection, the Contracting Officer will utilize your hourly price for the last priced option period as the hourly price for an option period added prior to award in order to create a full two year contract.

PRICING INFORMATION: Insert the price per hour that you want the Navy to pay you. You may want to consider inflation when pricing the option period. The Government will award a contract that is neither too high nor too low. Your price should be high enough to retain your services but not so high as to be out of line when compared to the salaries of other Registered Nurse in the Okinawa, Japan Area. The Government will neither award a contract at a price that is too high or too low. The resulting contract is a firm fixed price contract therefore the hourly wages you propose, negotiated and agreed to by both parties are non-negotiable once a contract is awarded.

Please note that if you are awarded a Government contract position, you will be responsible for paying all applicable federal, state and local taxes. The Navy does not withhold any taxes. Your proposed prices should include the amount you will pay in taxes.

In addition, before commencing work under a contract, the health care worker shall obtain the following required levels of insurance at his or her own expense: (a) Automobile Liability – Auto liability insurance written on the comprehensive form of policy.
