

NH YOKOSUKA PHARMACY FORMULARY – Updated MARCH 2018

- The formulary lists medications which are currently available for outpatient dispensing at the Naval Hospital Yokosuka Pharmacy. For updates on a specific medication, please contact the pharmacy department. The formulary is organized by therapeutic category and may be searched for a specific generic drug name.
- Telephone prescriptions will not be accepted. Photocopies of prescriptions and faxed prescriptions will also **not** be accepted. Refills remaining from prescriptions originally filled at civilian or VA pharmacies may take 1-2 business days due to differences in time zones. Prescriptions will be entered electronically by the provider. Paper prescriptions for formulary medications from outside providers will be honored, providing that they comply with legal requirements and they may take 1-2 business days to process due to differences in time zones.
- All new prescriptions must be picked up by the patient or patient's representative. If the patient's representative picks up medications for the patient, then the representative must have the patient's military ID card, a copy of the ID, or a picture of the ID (including smartphone pictures) and his/her own form of identification in order to ensure patient privacy.
- DOD policy states a generic equivalent medication will be substituted for brand name, if one is available. For this reason, prescriptions marked DAW (dispense as written) or Brand only will not be honored.
- **Quantity Limitations:**
 - Non-controlled medications
 - A prescription for a non-controlled medication shall be filled within 1 year of the date originally written. These prescriptions may be refilled, if authorized by the prescriber, up to 12 months from the date originally written. Prescriptions will expire 1 year from the date written, or when the refills are expended—whichever occurs first. Prescription quantities will be filled as written up to a 100-day supply for maintenance medications. Oral contraceptives can be written for up to six months with one refill.
 - Controlled medications
 - Controlled substances in Schedules III-non-narcotic, IV, and V are limited to a 30-day supply with six refills. A 90-day supply may be dispensed for seizure control. Other limitations may be imposed, per the Medication Management Committee.
 - Controlled substances in Schedule II may not be refilled. Up to a 100-day supply of Schedule II stimulant medication may be dispensed. All other Schedule II controlled substances are limited to 30 days.
 - The pharmacy may be required to impose temporary quantity limitations in cases of drug shortages, backorders, and other periods of unavailability.
- **Hours of Operation:** The Naval Hospital Yokosuka Pharmacy is open from 8:00 a.m. to 5:00 pm Monday through Friday, closed daily from 1230 - 1330 for all prescriptions. The pharmacy is closed on weekends and all federal holidays for outpatient business.
- **Refill Policy:** Refill requests are recommended to use the automated phone-in refill system--**243-4689** (on base) or **046-816-4689** (off base)—or you may use the internet link TRICARE Online Page <https://www.tricareonline.com> (**NOTE** You'll have to complete the self-registration to use the TRICARE online refill service). Your use of the automated systems enables pharmacy personnel to process refills during less busy periods and **reduce overall waiting times for all patients**. Patients who neglect to call in their refills may be asked to return the next business day or later in the day depending upon workload. New prescriptions and called-in refills are triaged at a higher priority than walk-up refills.
- **Phone Numbers:** The Phone number to the Pharmacy is DSN 315-243-5669 or local Japan 046-816-5669. The phone number for prescription refills is DSN 315-243-4689 or local Japan 046-816-4689.
- **Mail Order Pharmacy:** TriCare Beneficiaries may also use the TRICARE Mail Order Program administered by Express Scripts. This program offers a convenient option to receive covered medications not carried on the hospital formulary. Visit <http://www.tricare.mil/homedelivery> for more details and to register. The DoD Uniform Formulary, which covers Mail Order is available at http://pec.ha.osd.mil/formulary_search.php?submenuheader=1.
- Detailed drug information for formulary items can be found on Lexicomp site. <http://online.lexi.com/crlonline?siteid=1>.
- **Emergency contraception** (Plan B and its equivalent) are available without a prescription for eligible beneficiaries. There is a limit of 2 packages per 6 months per DoD policy. If more than 2 packages dispensed during the past 6 months as an OTC, member is required to see a provider. Ella is another form of emergency contraception but is prescription only.
