

Staff Advisory 015

August 4, 2020

Fourteen-Day Closure of NMCSO CDC

---

The Child Development Center (CDC) at Naval Medical Center San Diego (NMCSO) will be closed until August 17, 2020 at the earliest.

The Naval Base San Diego commanding officer, CAPT Mark Nieswiadomy, issued a closure order following confirmation that one of the staff members at the NMCSO CDC tested positive for COVID-19.

According to the notice, "NMCSO CDC staff and children who were in attendance from July 26, 2020 through July 28, 2020 may have had contact with the staff member, and are asked to remain at home, self-monitor, and report changes in health conditions to their medical provider. In order to minimize potential spread, impacted families will not be permitted to enroll in other Metro programs during this timeframe. Parents will be notified by e-mail and/or phone when NMCSO CDC is approved to re-open."

Parents whose children attend the CDC may direct their questions and concerns to the Children and Youth Programs director, Ms. Phyllis Williams at [phyllis.williams1@navy.mil](mailto:phyllis.williams1@navy.mil) or (619) 556-9585.
